SparSan Q™ Disinfectant Deodorant
Linen Clean Fragrance

Disinfects and deodorizes surfaces through effective bacterial and fungalicidal activity. Kills Staphylococcus aureus (Staph), Sarcina lutea (Strep), Pseudomonas aeruginosa, Methicillin-Resistant Staphylococcus aureus (MRSA), Mycobacterium tubercu-losa, Serrinia万吨, Nocardia asteroides, Staphylococcus epidermidis, and Enterococcus faecalis (VRE). Influenza A Virus, Influenza B Virus, Swine Influenza A Virus (H1N1) and Influenza B Virus strain H3N2 on pre-cleaned, lint, non-porous environmental surfaces. Prevents mold and mildew on environmental surfaces in public places.

Meets ASHRAE 62.1 Standards for hospital and industrial environments.

Spray on Surfaces: Directly by spraying. Germicidal activity kills non-proliferating organisms. Controls unpleasant odors. Pleasantly scented. Use in hospital rooms, sick rooms, doctors’ examination rooms, athletic, recreational, and entertainment areas. **Bacterial**: Kills 99.9% of Staphylococcus aureus and Enterococcus faecalis on pre-cleaned, lint-non-porous, non-food contact surfaces with a 3-minute contact time.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

To Clean: Prior to disinfection, thoroughly pre-clean all surfaces to be treated by removing all gross film or heavy soil.

To Disinfect: Hold can upright and spray from a distance of 8 to 10 inches until area is treated. Allow 5 minutes contact time.

For Control of Mold and Mildew on Porous: Spray surface until thoroughly moistened. Allow to air dry. Repeat application up to 7 days.

For Control of Whitefooted Mouse (Ratte: Rattus norvegicus) in areas such as bathrooms, locker rooms, parks, benches, showers, sinks, or other non-porous environmental surfaces immediately after cleanup. Spray surface until thoroughly moistened. Allow surface to remain wet for 10 minutes. Allow to air dry.

For Use On: Walls, floors, doorframes, doors, windows, fixtures, containers, toilet seats, diaper pads, telephones, trash cans, and equipment. Due to the possibility of electronic shock when used on telephones, avoid areas where people work.

Note: Disinfectant liquid contact surfaces must be rinsed with potable water after cleaning and disinfection and before use.

HINTS: Disinfectant

Kills HIV or pre-cleaned environmental surfaces and objects previously killed with blood/body fluids in health care settings or other settings in which there is an expected likelihood of contact of intact mucous membranes or objects with blood or body fluids, and in which the surfaces and objects likely to be soiled with blood or blood fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) associated with AIDS.

Special Instructions for cleaning and decontamination against HIV on surfaces and objects soiled with blood or body fluids:

- Personal: Protection: Specific barrier protection items to be used when handling forms soiled with blood or body fluids are disposable latex gloves, gowns, masks or eye coverings.
- Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant.
- Disposal Of Infectious Materials: Blood and other body fluids must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.
- Contact Time: Leave surfaces wet for 10 minutes. This contact time will not control other types of viruses and bacteria.

This product is not to be used as a termial disinfectant (high level disinfectant) on any surface or in any instrument that is (1) introduced directly into the human body, either in or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or decontaminate clinical or non-clinical devices prior to disinfection or high level disinfection.

STORAGE AND DISPOSAL

Do not consume water, food, or feed by storage and disposal.

- Pesticide Storage: Store upright in a cool, dry place away from heat or open flame.
- Pesticide Disposal: Washes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
- Container Disposal: Non-refillable container; do not reuse or refill this container. Do not puncture or incinerate. If empty, place in tight-fitting cover for recycling as paint. This container may be recycled in the fed but growing number of communities where (lead) paint can recycling is available. Before offering for recycling, empty the can by using the product according to the label. Do not puncture or incinerate. If empty, do not dispose of in landfills. Place in trash.
- Pesticide: Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENT

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

WARNING: Causes substantial, but temporary eye injury. Do not get in eyes or on clothing. Wear safety glasses or face shield. Thoroughly wash hands after using and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor for treatment advice. Have person sip a quart of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may occur. Consult the use of gastric irrigant.

PHYSICAL OR CHEMICAL HAZARDS

Contains under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause burning. Do not use on polished wood, painted surfaces, leather, rayon fabrics, acrylic plastic or furniture.
