It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on critical or semi-critical medical device surfaces. This product is designed specifically as a non-ionic acid cleaner and disinfectant for use in hospitals, schools and veterinary clinics where keeping is of prime importance in controlling the hazard of cross contamination. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces, floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. May be used in the kitchen on sinks, appliances, and countertops. A rinse with potable water is required for surfaces in direct contact with food.

**DIRECTIONS FOR USE**

May be used in the kitchen on counters, sinks, appliances, and stovetops. A rinse with potable water is required for surfaces in direct contact with food.

**DISINFECTION, DEODORIZING AND CLEANING**

- **Inanimate hard, non-porous surfaces**: Use 0.1% (100 ppm) DC Plus on hard, non-porous surfaces in a spray mode (not a wipe). Saturate the surfaces/things to be treated. A rinse with potable water is required for surfaces in direct contact with food.
- **Plastic and painted surfaces**: spot test on an inconspicuous area before use. May be used in the kitchen on sinks, appliances, and countertops. A rinse with potable water is required for surfaces in direct contact with food.

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS**

- Remove gross filth or heavy soil prior to application of the product. Hold container six to eight inches from surface to be treated. Spray area until it is covered with a light mist. No scrubbing is necessary. Wipe off with a clean cloth, mop or sponge. The product will not leave soil or soap scum.

When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks, and eye coverings. Do not use the product in the immediate area where food is being prepared. DC Plus exhibits virucidal activity against a wide range of viruses, including: HIV-1, Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV). Special instructions for cleaning and decontamination against HIV-1, HBV and HCV on surfaces/objects previously soiled with body fluids.
