This product is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area.

DIRECTIONS FOR TRIGGER SPRAY USE:
For Horses Use Full Strength. This non-oily insecticide repellent may be applied with a trigger spray applicator, or as a wipe. Kills stable flies, horse flies, face flies, deer flies, house flies, horn flies, grats, ticks, flies, chiggers, and lice, and repels mosquitoes. Not for use on horses intended for slaughter.

• Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
• Do not use where livestock (other than horses) are housed or fed, or where livestock feeds are stored. Do not contaminate water, feed or foodstuffs, milk or milking utensils. Do not repeat treatment more than once every day.
• After the 10 minute treatment period, open the area and thoroughly ventilate prior to reoccupation by humans or animals.

For Use as a Space Spray or Fog:
• Do not remain in treated area, exit immediately and remain outside treated area until mists have dispersed and sprays have dried.
• Remove pets, birds, and cover aquariums before spraying. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, and food preparation surfaces, or wash them before use.
• Except when applying to horses, ponies and foals, do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

For Use as a Surface Spray:
• Do not enter or allow others to enter until sprays have dried.
• Application prohibited directly onto ewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

For Outdoor Applications (Residential Only):
• Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice treatments, only. Not for use in outdoor residential misting systems or insect release systems.
• Do not make applications during rain.
• Do not water the treated area to the point of run-off.

For Horses Use Full Strength. This non-oily insecticide repellent may be applied with a trigger spray applicator, or as a wipe. Kills stable flies, horse flies, face flies, deer flies, house flies, horn flies, grats, ticks, flies, chiggers, and lice, and repels mosquitoes. Not for use on horses intended for slaughter.

DIRECTIONS FOR TRIGGER SPRAY USE: Remove excess dirt and dust. Apply light mist spray to coat while brushing lightly against lay of the hair. Avoid spray in eyes and mucous membranes. Apply with sponge or cloth to those areas.

DIRECTIONS FOR Wipe-ON USE: Thoroughly brush horse to remove excess dirt and dust. Extremely dirty horses should be shampooed, rinsed, and allowed to dry before applying wipe. Use a sponge or clean soft cloth or mitt. Apply liberally over areas to be protected. Pay special attention to legs, belly, shoulders, neck, and facial areas. Avoid eyes and mucous membranes.

To Kill Flying Insects and Repel Mosquitoes in Horse Quarters: Use this product in horse barns and stables to kill stable flies, horse flies, face flies, deer flies, house flies, horn flies, grats, ticks, flies, chiggers, and lice, and repel mosquitoes. Use as a fine mist, or as a coarse spray. Apply directly to building foundations, up to a maximum height of 1 foot from the ground. Avoid eyes and mucous membranes.

Spray in areas where insects TO KILL FLYING INSECTS AND REPEL MOSQUITOES IN HORSE QUARTERS:
Do not apply to dogs less than 6 months old. Do not allow cats to have contact with treated dogs for 24 hours. Start spraying at the animal’s head, do not spray near the eyes or mouth. Make sure the animal’s entire body is covered including the legs, underbelly and tail. While spraying, fluff the hair so that the spray will penetrate to the skin. Make sure spray wets thoroughly, but do not saturate dog. Do not allow dog to become chilled. Do not spray the animal’s genitalia. Repeat every 1–2 days.

For USE ON HORSES, PONIES, FOALS, DOGS AND PUPPIES
This product is not for use on cats and kittens intended for slaughter.
