PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals
DANGER Corrosive. Causes irreversible eye damage. Harmful if swallowed. Do not get in eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing before reuse.

FIRST AID
If in eyes: Hold open eyes and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on clothing, if present, after the first 5 minutes, then remove clothing. Slowly rinse skin area thoroughly with water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip small amounts of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN
Potential mucosal damage may contraindicate the use of gastric lavage.

GENERAL PURPOSE IRRIGANT CLEANER

VistaClean is an aqueous cleaner derived from citrus botanicals designed for use in dental waterlines. As an aqueous cleaner it has the ability to emulsify organic and inorganic contaminants, scale and exfoliation products. It provides lubrication as an irrigant while also protecting lines and system components from deposits and scale. It may be used in waterlines in contact with patients continuously or intermittently as desired. It is non-toxic, non-corrosive and has no negative effect on bond strength. NEVER USE FULL STRENGTH.

INGREDIENTS:

- Citrus Botanicals ........................................ 59.0%
- Glycerol USP ............................................ 39.0%
- Ascorbic Acid USP ..................................... 2.0%

TOTAL ........................................................................ 100.0%

CONVERSIONS:

500 ml = 16.91 oz. 750 ml = 25.36 oz.
1.7 grams = 0.06 oz. 28.35 grams = 1 oz.

Team Vista Instructions For Dental Bottle System Users

**DAILY**

1. Fill bottle to normal capacity with clean water.
2. Add the correct number of VistaClean Irrigant Solution Concentrate drops based on the size of the bottle as shown below:
   
<table>
<thead>
<tr>
<th>Bottle Capacity</th>
<th>Min Drops</th>
<th>Max Drops</th>
</tr>
</thead>
<tbody>
<tr>
<td>500 ml</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>750 ml</td>
<td>1</td>
<td>3</td>
</tr>
<tr>
<td>1.0 L</td>
<td>1</td>
<td>3</td>
</tr>
<tr>
<td>1.5 Liters</td>
<td>1</td>
<td>4</td>
</tr>
<tr>
<td>2.0 Liters</td>
<td>2</td>
<td>5</td>
</tr>
</tbody>
</table>
3. Return the bottle to manifold on the dental unit.
   The water system is now ready for use with patients.

**MONTHLY**

**Preparation:**
1. Remove handpieces and purge all waterlines with air to remove water.
2. Remove bottle and clean it thoroughly with hot water, a suitable cleanser and bottle brush.

**Routine Treatment:**
1. Every week or as needed*, add one (1) 1.7 gram VistaTab Dental Waterline Cleaner Tablet for every 750 ml of potable water. Allow the tablet to dissolve.
2. Flow about half of the treated water through the dental waterlines and let the treated water sit within the lines for 5 minutes. Purge the remaining water through the lines.
3. Flush at least 500 ml of potable water through the lines to remove any residual chemical.

*Treatment should be done if bacteria count is greater than 500 cfu/ml as recommended by the CDC.
4. Go to “Daily” protocol to prepare a fresh supply of water for use with patients.

**Note:** Periodic cleaning may be done on any day of the week. Water quality is greatly impacted by cross connections, dead legs, faulty anti-retraction valves, etc. We suggest testing water quality at least quarterly using an in-office test or outside service. When used properly, VistaClean is completely non-toxic, safe for the environment, non-corrosive, simple to use and has no negative effect on bonding. Never use full strength.

Precautions: Use these products only as directed. Please read the Precautionary Statements on the reverse side of this page.

</tbody>
</table>

**Note:** A line cleaning may be necessary more often than once per month depending on the quality of the water used to fill the bottles, contamination by users during bottle changes, age of system, etc. Be certain to purge all devices that contain water including handpiece, air/water syringe, scaler, quick disconnect line and cup filler (if present). Water quality is greatly impacted by cross connections, dead legs, faulty anti-retraction valves, etc. We suggest testing water quality at least quarterly using an in-office test or outside service. When used properly, VistaClean is completely non-toxic, safe for the environment, non-corrosive, simple to use and has no negative effect on bonding. Never use full strength.

Team Vista is a convenience combo pack that contains two different products. VistaClean is a general-purpose irrigant and cleaner that provides lubrication as an irrigant while also protecting lines and system components from deposits and scale. VistaTab is designed for the cleaning and control of microbial contamination in dental unit waterlines. VistaClean is an FDA cleared irrigant and VistaTab is an EPA registered antimicrobial in all states.

INITIAL CLEANING: For first time users - Under the DIRECTIONS FOR USE section on the reverse side of this page, follow the “INITIAL TREATMENT” steps for all water delivery systems to make certain lines are cleaned prior to beginning “Daily” protocol.
**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals

DANGER. Corrosive. Causes irreversible eye damage. Harmful if swallowed. Do not get in eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing before reuse.

**FIRST AID**

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If Swallowed: Call poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN**

Probable mucosal damage may contraindicate the use of gastric lavage.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and other aquatic organisms.

**PHYSICAL/ CHEMICAL HAZARDS**

Keep away from combustible, organic or other readily oxidizable materials. Do not mix with any other chemicals.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**INITIAL TREATMENT:**
1. Add two (2) 1.7 gram VistaTab Dental Waterline Cleaner Tablets for every 750 ml of potable water. Allow the tablets to dissolve.
2. Flow about half of the treated water through the dental water lines and let the treated water sit within the lines for 5 minutes. Purge the remaining water through the lines.
3. Repeat steps 1 and 2.
4. Flush at least 500 ml of potable water through the lines to remove any residual chemical.

**ROUTINE TREATMENT:**
1. Every week or as needed*, add one (1) 1.7 gram VistaTab Dental Waterline Cleaner Tablet for every 750 ml of potable water. Allow the tablet to dissolve.
2. Flow about half of the treated water through the dental water lines and let the treated water sit within the lines for 5 minutes. Purge the remaining water through the lines.
3. Flush at least 500 ml of potable water through the lines to remove any residual chemical.

Note: Periodic cleaning may be done on any day of the week.

* Treatment should be done if bacteria count is greater than 500 cfu/ml as recommended by the CDC.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store this product in a cool, dry area away from direct sunlight and heat. Keep product from contacting air prior to use to avoid deterioration.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsewater is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING AND DISPOSAL:** Non-refillable. Do not reuse or refill this packet. Offer for recycling, if available. If recycling is not available, dispose empty packet in sanitary landfill or by incineration. If burned stay out of smoke.

**How to Use Team Vista™ Dental Waterline Cleaner**

**VISTACLEAN™ IRRIGANT SOLUTION CONCENTRATE**

by Hu-Friedy

Team Vista is a convenience combo pack that contains two different products. VistaClean is a general-purpose irrigant and cleaner that provides lubrication as an irrigant while also protecting lines and system components from deposits and scale. VistaTab is designed for the cleaning and control of microbial contamination in dental unit waterlines. VistaClean is an FDA cleared irrigant and VistaTab is an EPA registered antimicrobial in all states.

**INITIAL CLEANING:** For first time users - Under the DIRECTIONS FOR USE section on the reverse side of this page, follow the "INITIAL TREATMENT" steps for all water delivery systems to make certain lines are cleaned prior to beginning "Daily" protocol.

### Team Vista Instructions For Dental Bottle System Users

#### DAILY

1. Fill bottle to normal capacity with clean water.
2. Add the correct number of VistaClean Irrigant Solution Concentrate drops based on the size of the bottle as shown below:

<table>
<thead>
<tr>
<th>Bottle Capacity</th>
<th>Min Drops</th>
<th>Max Drops</th>
</tr>
</thead>
<tbody>
<tr>
<td>500 ml</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>750 ml</td>
<td>1</td>
<td>3</td>
</tr>
<tr>
<td>1.0 Liter</td>
<td>1</td>
<td>3</td>
</tr>
<tr>
<td>1.5 Liters</td>
<td>1</td>
<td>4</td>
</tr>
<tr>
<td>2.0 Liters</td>
<td>2</td>
<td>5</td>
</tr>
</tbody>
</table>
3. Return the bottle to manifold on the dental unit.
The water system is now ready for use with patients.

**Note:** Always start with a fresh batch each time the bottle is removed and filled. Use the above formula. If water remains in the bottle at the end of the day, the bottle may be left attached to system manifold and used the following day. The bottle containing water and VistaClean drops may be left attached to the dental unit manifold when not in use to keep system sealed. If the water foams or patients notice an astringent taste, reduce the number of drops used when making each batch.

#### MONTHLY**

**Preparation:**
1. Remove handpieces and purge all waterlines with air to remove water.
2. Remove bottle and clean it thoroughly with hot water, a suitable cleanser and bottle brush.

**Routine Treatment:**
1. Every week or as needed*, add one (1) 1.7 gram VistaTab Dental Waterline Cleaner Tablet for every 750 ml of potable water. Allow the tablet to dissolve.
2. Flow about half of the treated water through the dental waterlines and let the treated water sit within the lines for 5 minutes. Purge the remaining water through the lines.
3. Flush at least 500 ml of potable water through the lines to remove any residual chemical.

**Note:** Periodic cleaning may be done on any day of the week.

**Precautions:** Use these products only as directed. Please read the Precautionary Statements on the reverse side of this page.

*Treatment should be done if bacteria count is greater than 500cfu/ml as recommended by the CDC.

**Go to “Daily” protocol to prepare a fresh supply of water for use with patients.**
