### PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

**CORROSIVE**

CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS

MAY CAUSE ALLERGIC SKIN REACTION

MAY BE HARMFUL IF INHALED

MAY BE FATAL IF SWALLOWED OR ABSORBED THROUGH THE SKIN

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**ACTIVE INGREDIENTS:**
- 5-Chloro-2-methyl-4-isothiazolin-3-one: 1.11%
- 2-Methyl-4-isothiazolin-3-one: 0.39%

**INERT INGREDIENTS:**
- 96.50%

**KEEP OUT OF REACH OF CHILDREN**

**FIRST AID**

**ON SKIN:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 min.

**ON EYES:**
- Hold eyes open and rinse slowly and gently with water for 15-20 min.

**INHALED:**
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably mouth-to-mouth.

**SWALLOWED:**
- IF IN EYES:
  - Hold eye open and rinse slowly and gently with water for 15-20 min.
- IF INHALED:
  - Move person to fresh air.
- IF SWALLOWED:
  - Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**STORAGE AND DISPOSAL**

**PROHIBITIONS**

Do not contaminate water, food or feed by storage, disposal, or cleaning of equipment.

Do not apply this product in a way that will contact workers or other persons.

**PESTICIDE DISPOSAL**

Post-consumer waste is non-hazardous. Improper disposal of excess pesticides or other is a violation of Federal law. If these wastes cannot be disposed of by one according to label instructions, contact your State Pesticide or Environmental Protection Agency or the Sanitation Works representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL**

**METAL CONTAINERS:**
- Triple-closure equivalent. Thermo for recycling or reconditioning, or by other procedures approved by state and local authorities.

**PLASTIC CONTAINERS:**
- Triple-closure equivalent. Thermo for recycling or reconditioning, or by other procedures approved by state and local authorities.

**ENVIRONMENTAL HAZARDS**

This chemical is toxic to aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, ponds, pools, canals, streams, or other water bodies in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has notified you in writing of its intention to close the discharge. Do not discharge effluent containing this product to surface waters without first certifying to the local sewage treatment plant authority for guidance.

**PLASTIC CONTAINERS:**
- If the material is not compatible with the container, add 1.5-2.5 lbs (0.7-1.2 kg) of an inert material to reduce the risk of releasing the product to the environment.

**IN CASE OF TRANSPORTATION EMERGENCY**

**CALL CHEMTREC 800-424-9300 (703-527-3887)**

### DIRECTIONS FOR USE

Nuosept 515R CA microbicide is recommended for the control of bacteria and fungi in the manufacture and storage of synthetic and natural polymer latices including: acrylic, styrene-butadiene, carboxylated-styrene-butadiene, ethylene/vinyl acetate, biopolymers intended for industrial use, such as a xanthum gum, guar gum, multipolymer derivatives, polystyrene, caustic-derived polystyrene latices, and soya polymer. Add 1.5-3.3 pounds of Nuosept 515R CA to 1000 lbs (454 kg) of solution to provide 425-3550 ppm product (0.25-25 ppm active Nuosept 515R CA). Nuosept 515R CA weighs 8.4 pounds/gallon.

NOTE: To avoid uneven mixing, add Nuosept 515R CA to latex or solutions slowly with agitation. The actual required concentrations will depend upon such factors as the specific adhesive to be treated, frequency of repeated microbial contaminations expected, and level of performance required.

Refer to the table at the end of this section for dosing details for these applications.

### BUILDING MATERIAL PRESERVATION

Nuosept 515R CA microbicide is recommended as an in-container preservative for the control of bacteria and fungi in water-soluble and water-dispersed adhesives such as animal glues, vegetable glues, natural rubber latices, polyviny acetate, styrene butadiene and acrylic latices. Nuosept 515R CA is recommended as a preservative for nitriles derived from styrene and hydrocarbon resins.

### PAINT AND COATING PRESERVATION

Nuosept 515R CA microbicide is recommended as an in-container preservative for the control of bacteria and fungi in water-based coatings such as paper and wood coatings and paints used for architectural product finishes, and special-purpose coatings.
