maintain brominating tablets

1” tablets for use in bromine feeders

ACTIVE INGREDIENT:
1-Bromo-3-chloro-5,5-dimethylhydantoin 96.0%
OTHER INGREDIENTS: 4.0%
TOTAL: 100.0%

NET WT. 25 LBS. (11.3 Kg)

KEEP OUT OF REACH OF CHILDREN
DANGER
See back panel for First Aid and additional precautionary statements.

MANUFACTURED FOR: BIO-LAB, INC. P.O. Box 300002, Lawrenceville, GA 30049 USA

Kills Bacteria
Kills Algae
Non-chlorine Sanitizer

* Please refer to directions for use.

BioGuard® has a wide variety of products that are required to maintain a high-quality swimming environment. These products are designated as “Maintain.”

This product, when used as directed, is effective as a swimming pool water sanitizer and disinfectant. This product is an excellent alternative to chlorine-based systems. Ideal sanitizer for indoor pools. Highly effective for outdoor pools as well. Bromine is an excellent sanitizer because it works well over a wide pH range and is a low odor sanitizer. This product must be applied through a bromine feeder.

Ensure all pool equipment is working properly. Clean or backwash filter following manufacturer’s directions. Adjust pH to between 7.2-7.6. When using other products as outlined in directions for this product, always follow directions on those products. A bromine or chlorine residual of 1-2 ppm must first be established in the pool. If the residual is established with this product in a brominator, use the brominator at the highest feed rate following manufacturer’s recommendations. When the bromine residual reaches 1-2 ppm, adjust the feeder accordingly. To maintain bromine residual, adjust the brominator feed rate to insure a constant treatment level of 1-3 ppm in residential pools and 0.5-1 ppm in commercial pools. Regular use of a test kit or test strips is necessary to maintain a bromine residual in the pool water.

Reentry into treated swimming pools is prohibited above levels of 8 ppm bromine due to risk of body injury.

**STORAGE AND DISPOSAL:** Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not contaminate food or feed by storage or disposal. Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**NOTE:** Buyer assumes all responsibility for safety and use not in accordance with directions.

Each tablet weighs approximately 20 grams.
