TOTAL INGREDIENTS: .................................. 100.0%

APPLY AS NEEDED*

* Maintain super soluble granular stabilized chlorinator

NOTE: For full range of抄写 and additional regulatory statements

* Please refer to directions for use.
SWIMMING POOL SANITIZER

BioGuard® has a wide variety of products that are required to maintain a high quality swimming environment. These products are designated as "Maintain." When used as directed, this product is effective as a swimming pool water sanitizing agent.

DIRECTIONS FOR USE:
This is a solution of hydrolized protein that is mixed with isinglass and other ingredients. It is a neutral pH solution that is compatible with all pool equipment. Use to maintain a clear swimming pool water. It is recommended as a preventative algae treatment. It is not an algicide and should be used in conjunction with an algicide when algae is present.

STORAGE AND DISPOSAL:
- Store in a cool, dry, well ventilated area. Keep out of reach of children and pets.
- Do not allow this product to become contaminated with other chemicals. To avoid reactions, keep this product separate from other chemicals.
- Do not use this product in areas where it may contact food or water sources.
- Do not mix this product with other chemicals or products.
- Do not use this product in areas where it may come into contact with fish or aquatic organisms.

IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

PHYSICAL OR CHEMICAL HAZARDS:
- Strong oxidizing agent: Do not mix with other chemicals. Mix only with water. Never add water to product.
- Harmful if swallowed or absorbed through skin.
- Do not get in eyes or on clothing.
- Do not breathe dust, fumes, or vapors.
- Do not inhale.

ENVIRONMENTAL HAZARDS:
- This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
