SWIMMING POOL SANITIZER

Our Ingredients: What They Do:

This product is a compound action product:

- **Clarifies** – to clear water
- **Algicide** – kills algae
- **Shield®)** Sunlight Protector (Sun- 
- **To shock**

**PHYSICAL OR CHEMICAL HAZARDS:**

- **HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**
- **PRECAUTIONARY STATEMENTS:**

ROUTINE CHLORINATION:

**APPLICATION METHOD:**

To apply this product directly to the pool or through the skimmer per label directions. Follow the above steps:

- Add product in dry form directly to the pool water by broadcasting evenly across the surface of the pool, with the pump operating for at least 4 hours. If your pool has a bleachable surface, such as vinyl, siliconized plastic, painted or fiberglass, use a separate application, or add directly to pool. Existing chloride products will completely dissolve to avoid bleaching. If you have a vinyl liner and cannot cover the bottom of your pool, apply this product directly to skimmer and avoid bleaching.

Initial Startup:

If you are opening your pool in the spring, your pool has not been treated for several weeks, or if pool has been filled, brush all pool surfaces with pump operating. Following the above Application Method, add 1 lb (2, 8 oz cups) of this product in dry form per 10,000 gallons of pool water. After one hour, test chlorine level (residual). Reapply dosage and test until chlorine level is at 4 ppm.

Routine CHLORINATION:

Add product in dry form directly through the skimmer with the pump operating, basket removed and the pump operating. Replace the skimmer basket and keep the pump operating 24 hours per day to avoid bleaching.

**STORAGE AND DISPOSAL:**

Keep product dry and cool. Store in a cool, dry, well-ventilated area away from heat, open flame or any other source of ignition. Do not store near food or feed. Do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water. In case of decomposition, do not reseal container. Do not mix this product with any other product. Do not use this product to remediate spills. Do not apply this product to pools with vinyl or other flexible liners. Do not use this product on pool equipment or filter media. Do not contaminate soil, vegetation, or water sources. Do not contaminate soil or vegetation. This pesticide is toxic to fish and aquatic organisms. Call 1-877-800-5553.

IF SWALLOWED:

- Do not give anything by mouth to an unconscious person.
- Call poison control center or doctor immediately for instructions. Do not give anything by mouth to an unresponsive person.

FIRST AID:

- IF IN EYES:
- Take off contaminated clothing and wash skin immediately with soap and water for at least 15 minutes. Do not rub.
- IF INHALED:
- Move person to fresh air. If person is not breathing, call 911 or assemble 260.indd

Directly in Swim: Add product in dry form directly through the skimmer with the pump operating. Replace the skimmer basket and keep the pump running for at least 4 hours.

Directly in Pool: Add product in dry form directly in the pool by broadcasting evenly across the surface of the pool, with the pump operating for at least 4 hours. If your pool has a bleachable surface, such as vinyl, siliconized plastic, painted or fiberglass, use a separate application, or add directly to pool. Existing chloride products will completely dissolve when added directly to pool. Avoid bleaching. If you have a vinyl liner and cannot cover the bottom of your pool, apply this product directly to skimmer and avoid bleaching.

**APPLICATION INSTRUCTIONS:**

- **For best results, apply product weekly as part of your maintenance program.**
- **With pump operating, brush algae from pool surfaces. Following the above steps:**
- **For best results, add 1 lb (2, 8 oz cups) of this product in dry form per 10,000 gallons of pool water every day, after heavy rain or other conditions that require extra treatment.**
- **For best results:**
- **APPLICATION METHOD:**

- Add product in dry form directly through the skimmer with the pump operating, basket removed and the pump operating. Replace the skimmer basket and keep the pump operating 24 hours per day to avoid bleaching.
