FOR INDUSTRIAL AND INSTITUTIONAL USE

wescodyne® plus

CONCENTRATED BROAD SPECTRUM IODOPHOR
FOR USE AS A ONE-STEP CLEANER-DISINFECTANT

ACTIVE INGREDIENT:
Iodine ........................................ 1.75%

INERT INGREDIENTS ..................... 98.25%

Total ......................................... 100.00%

From Alpha-(glyoxyxyphenyl)-omega-hydroxypoly(oxyethylene)-iodine complex

PRECAUTIONARY STATEMENTS:
Hazardous to humans and domestic animals.

KEEP OUT OF REACH OF CHILDREN

CORROSIVE: Causes irreversible eye damage. Harmful if swallowed. Do not get in eyes or on clothing. Avoid contact with skin. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

NET CONTENTS AS RECEIVED: 0.16 oz. (4.7 ml)
NET CONTENTS AFTER DILUTION: 16 oz. (473 ml)

EPA Reg. No. 4959-16-10190
LOT NUMBER: M904-074

EPA Est. 086134-NY-001
Expiration Date: Apr. 2012
VIRUCIDE*, BACTERICIDE, FUNGICIDE, DEODORIZER
Meets OSHA's Bloodborne Pathogens Act requirement. Used as directed. Wescodyne Plus is effective in hard water (up to 400 ppm CaCO3) and in 5% organic serum load against the following viruses, bacteria and pathogenic fungi: Polio Type 1*, Yellow Fever, Hepatitis A, E. Coli, Wescodyne Plus is effective against Listeria monocytogenes on pre-cleaned food contact surfaces. Used on pre-cleaned environmental surfaces in hard water (up to 400 ppm CaCO3), Wescodyne Plus is effective against Mycobacterium tuberculosis at 20°C for a contact time of 10 minutes. Used in hard water (up to 400 ppm CaCO3), Wescodyne Plus is effective against the HIV-1 Virus* on pre-cleaned environmental surfaces and objects previously soiled with blood or other body fluids. (This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly in the human body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.)

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Not for Residential Use.

ONE-STEP CLEANING AND DISINFECTING: Wescodyne Plus may be used to clean and disinfect a variety of non-porous surfaces. Remove heavy soil deposits before applying the disinfecting solution. Dilute contents of bottle to mark with room temperature potable water. Using a solution of 1.1 ounces (32.5 ml) Wescodyne Plus per 110 ounces water or 0.16 oz (4.7 ml) Wescodyne Plus per pint (16 ounces) of water (dilutions give 175 ppm iodine), immerse objects in disinfecting solution, or apply solution with a sponge or cloth or coarse spray. Allow a 10 minute contact time with disinfecting solution. Rinse with potable water before using.

KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in healthcare settings or other settings in which there is an elevated likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immuno-deficiency virus Type 1 (HIV-1) (associated with nosos).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES AND OBJECTS PREVIOUSLY SOILED WITH BLOOD OR OTHER BODY FLUIDS:
Date Diluted:
Use within 6 months of this date.

PERSONAL PROTECTION: While handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye covering (goggles or glasses).
CLEANING PROCEDURE: Before applying disinfecting solution, thoroughly clean blood and other body fluids from hard surfaces, interior and exterior surfaces of objects to be decontaminated. Thoroughly wet hard surfaces with a solution containing 1.1 ounces (32.5 ml) Wescodyne Plus per 110 ounces water or 0.16 oz (4.7 ml) Wescodyne Plus per pint (16 ounces) of water (dilutions give 175 ppm iodine).
Completely immerse objects in the disinfecting solution, avoid entrapment of air bubbles. Allow at least 10 minutes of contact time.

DISPOSAL OF INFECTIOUS MATERIAL: Blood and other body fluids should be autoclaved and disposed of according to local, State and Federal regulations for infectious waste disposal.

FIRST AID STATEMENT
If In Eyes: Hold eye open and wash slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing.
Call a Poison Control Center or doctor for treatment advice.

If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a Poison Control Center or doctor for treatment advice.

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Do not give anything to an unconscious person.

Inhaler: Move person to fresh air. If person is not breathing call 911 or an ambulance. Then give artificial respiration. Preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the numbers listed below:
Emergency treatment information: Note to Physician: Probable mucous damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL
Keep container closed when not in use. Do not store below 25°F or above 100°F for extended periods.

PROHIBITIONS: Do not incinerate, burn or incinerate. Do not mix with other cleaning products.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, sprays or mixtures or disposal in a landfill or sewer is a violation of Federal law. If these wastes cannot be disposed of by use according to latest instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance. CONTAINER DISPOSAL: Triple rinse (or equivalent) Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or incinerator or burn container if allowed by local and State authorities. If burned, stay out of smoke.
