dual action 3" chlorinating tablets

protects against bacteria and algae
• sun protected for extended chlorine life
• protege contra las bacterias y las algas
• protección solar para extender la duración del cloro

sanitize

1 balance 2 shock 3 prevent algae

ACTIVE INGREDIENTS:
- Trichloro-s-Triazine-trione 93.5%
- Copper Sulfate Pentahydrate 1.3%
- INERT INGREDIENTS 5.0%
- TOTAL 100.0%
- Available Chlorine 84%

KEEP OUT OF REACH OF CHILDREN
MANTENER FUERA DEL ALCANCE DE LOS NIÑOS

DANGER
Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Do not add directly to your pool or spa. Do not remove from water or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue. Corrosive, Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. See side label for First Aid and Precautions.

Net Wt. 37.5 lbs. (17 kg)
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION: Use in a floating dispenser, automatic chlorinator or feeder designed for this product or place in skimmer.

Do not allow this product to get damp or wet before use. Do not allow this product to come into contact with other water treatment products. Use in a new chlorinating device or any device which has previously contained only this product or a chlorine- or bromine-containing inorganics. If placed in the skimmer, run the pump a minimum of eight hours daily. For clear water, follow your 4 step pool care program.

Step 1: Test and balance pool water. Step 2: Sanitize, Step 3: Shock at least once a week, and Step 4: Add algicide as directed.

Do Not Use in fountains or feeders that have been used with other water treatment products. Do not use in skimmer, run the pump a minimum of eight hours daily. Make sure skimmer is completely clean and free of debris from other water treatment products before putting this product in the skimmer.

Do not use tablets directly into pool.

Do Not Permit tablets to contact plastic pool liners or metal objects.

Do not use with any other tablets or sticks in the same skimmer, feeder, or fester.

Do Not Use in any chlorinating device which has been used with other chlorinating compounds.

Do Nt Use bare hands when handling product.

Do not mix with other products or disperse before use.

Do not Pre-mix this product. Only add this product directly to your pool.

WATER BALANCE: For best product performance, swimmer comfort and clear water, use HTH® pool care products to maintain the following water balance:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>pH</td>
<td>7.2–7.6</td>
</tr>
<tr>
<td>Total Alkalinity</td>
<td>80–120 ppm</td>
</tr>
<tr>
<td>Calcium Hardness</td>
<td>Above 200 ppm</td>
</tr>
<tr>
<td>Chlorine</td>
<td>1–4 ppm</td>
</tr>
</tbody>
</table>

Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Use an HTH test kit that measures all these ranges. Re-entry into treated pools is prohibited with chlorine levels above 4 ppm for the risk of body injury.

ROUTINE CHLORINATION: Add one tablet per 10,000 gallons of pool water every week or as often as needed to maintain a chlorine residual of 1.0 to 4.0 ppm. Follow “METHOD OF APPLICATION.” This dosage may vary depending upon bath load, water temperature and other conditions. Pool should not enter until the chlorine residual is 1–4 ppm as measured with a reliable test kit.

OPENING YOUR POOL: Balance pool water, shock treat, and stabilize your pool using HTH Stabilizer and Conditioner. Then follow “ROUTINE CHLORINATION” directions.

PHYSICAL AND CHEMICAL HAZARDS:

DANGER: If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Add only into water.

- Do not allow to become wet or damp before use.
- Do not store tablets or other dispersing devices from water for more than five minutes if it contains a tablet or tablet residue.
- Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

Keep all foreign matter, including other water treatment products, away from this product.

Do not use this product in a fountain or feeder that has been used with any other product.

Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of debris from other water treatment products before putting this product in the skimmer.

Strong oxidizing agent. This product can increase fire intensity.

Keep away from heat and from flame and burning material (like a lit cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL:

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Disposal of the container and any remaining contaminated material in an approved landfill area.

FIRST AID:

If In Eyes: Hold eye open and rinse slowly and gently with large amounts of water for 15–20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If On Skin Or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
