PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

WARNING: BREATH OF VOLATILE CHEMICALS. Causing irreversible eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. May be fatal if inhaled. Do not breathe spray mist. If swallowed, do not induce vomiting or give anything by mouth if choking. If swallowed, give water or milk to drink. Wash hands with soap and water after handling and before eating, drinking, using tobacco, or handling food. Wear contaminated clothing immediately.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, aquatic invertebrates, waterfowl, and birds. Do not discharge effluent containing this product into any watercourses, streams, or lakes in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without first notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office for guidance.

Staphylococcal Infections: SaniMaster 4 is a broad-spectrum germs killer and deodorant that is effective at 1:128 (1 ounce per gallon) dilution in the presence of 400 ppm hard water. For unleaching, mix 1 oz of SaniMaster 4 per gallon of water for a dry, non-dulling third surface.

DIRECTIONS FOR USE

To disinfect inanimate, hard non-porous surfaces add 1 ounce of this product per gallon of water. Apply spray. This product can be diluted at 1 ounce per gallon. Thoroughly wet soil area with a mop, cloth, sponge, hand pump trigger spray or low pressure coarse sprayer. This product, when used as directed, is intended for disinfecting hard, non-porous, inanimate, environmental surfaces:

1. Critical and semi-critical medical device surfaces.
2. Surgical and dental equipment, and surfaces that are not critical.
