INSECT CONTROL

FOR COMMERCIAL & INSTITUTIONAL USE

INSECTS CONTROLLED: For the control of drain flies, fruit flies, house flies, phorid flies, house wasps, gnats and other crawling and flying insects found in drain, restroom, and waste areas. Kills pests in contact.

WHERE TO USE: For use in and around commercial, institutional and industrial areas including restaurants, kitchens, hospitals, schools, day-care facilities, hotels, nursing homes, commercial dining rooms, food processing plants, warehouses, laundromats, offices, multi-family housing and veterinary clinics. Product use permitted in other areas or facilities when product is used according to local directions.

STORAGE AND DISPOSAL: Store in a cool area away from heat or direct sunlight. Do not freeze. Destroy container and excess material in an approved waste disposal area.

FIRST AID: For eye irritation, hold eye open and rinse slowly and gently with water for 5 minutes. If irritation continues, contact a medical professional.

DIRECTIONS FOR USE: Product is ready-to-use. Shake product before use. May be used for direct contact kill and for short-term repellency. Direct nozzle at target and spray until thorough coverage is achieved. For best results, spray product directly on insects. Spray areas where insects feed or forage, such as drains, sinks, urinals, waste areas, dumpsters, and any other areas where insects may be hiding or harboring. Reapply as often as needed. Do not apply or use in or around electrical wiring. Do not apply to cooking equipment or appliances. Trusted surfaces may be slightly yellowed and may lose gloss. Prior to use, spray a small inconspicuous area to check for possible staining. Occasional stain may be wiped up with a clean cloth. Read and follow the product label prior to use and use as directed.

INSECT CONTROL: For the control of drain flies, house flies, black flies, mosquitoes, biting midges, mouse lice, and other insects and rodents that mainly occur in areas of drains, bathtubs, and areas of drains. For best results, spray daily once in the morning and once in the evening after cleaning.

WHERE TO USE: For use in and around commercial, institutional and industrial areas including restaurants, kitchens, hospitals, schools, day-care facilities, hotels, nursing homes, commercial dining rooms, food processing plants, warehouses, laundromats, offices, multi-family housing, and veterinary clinics.

STORAGE AND DISPOSAL: Store at room temperature in a dry area away from heat or open flame. Do not freeze. Destroy waste container and excess material in an approved waste disposal area.

FIRST AID: For eye irritation, hold eye open and rinse slowly and gently with water for 5 minutes. If irritation continues, contact a medical professional.

DIRECTIONS FOR USE: The product is ready-to-use. Use directly on or near the target. Direct nozzle at target and spray until thorough coverage is achieved. For best results, spray product directly on insects. Spray areas where insects feed or forage, such as drains, sinks, urinals, waste areas, dumpsters, and any other areas where insects may be hiding or harboring. Reapply as often as needed.
