DIRECTIONS FOR USE:

POOLIFE® POOL ALGAE TREATMENT: FOR USE IN SWIMMING POOLS CONTINUOUSLY INFESTED WITH MUSTARD AND YELLOW ALGAE.

**ALGAE:** 1. Brush walls and floor areas affected by yellow algae. Add 6 ounces (1 pouch) of this product per 15,000 gallons of water. Apply 6 oz. (1 pouch) of this product per 15,000 gallons of water to prevent accumulation of yellow algae caused by heavy yellow algae accumulations.

**MUSTARD ALGAE:** 2. Superchlorinate by adding 1½ gallon of liquid chlorinating compound or 1½ lb. (pound) of a dry chlorinating compound per 15,000 gallons of water as close to the affected areas as possible. Swimming may be resumed a few hours after superchlorination. Do not directly mix this product with any other chlorinated product or other oxidizing agent other than as described in the directions for use. Do not contact with oxidizing agent other than as described in the directions for use.

**WEEKLY MAINTENANCE TREATMENT:** 3. For severe accumulations, double the above dosage. Apply 2 pouches of this product per 15,000 gallons of water to dissolve all material prior to disposal. Offer water to dissolve all material prior to disposal. Keep this product dry in its tightly closed container. When not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not reuse or refill this container. Rinse empty container thoroughly with water before discarding. Offer for recycling if available or discard in the trash.

**STORAGE & DISPOSAL:**
