Suitable for use in restoration, decontamination & remediation sites (fire, water, sewage, trauma scene) including residential, schools, offices, hotels, health care & food preparation facilities, hospitals, nursing homes, medical, veterinary & dental offices, health professional, chiropractic & physiotherapy healthcare & food preparation facilities, hospitals, nursing homes, medical, water, sewage, trauma scene.

Suitable for disinfecting hard, non-porous surfaces (finished woodwork, subfloors.

Suitable for disinfecting hard, non-porous surfaces (finished woodwork, subfloors.

Proven to kill over 99.99% of the EPA's designated test microorganisms for broad-spectrum claims of hospital disinfectant effectiveness.

Made from plant extracts with pleasant aromatherapeutic vapors.

*Virucidal
 Bactericidal
 Fungicidal
 Tuberculocidal in 5 minutes

**KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BOIDY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). SPECIAL INSTRUCTIONS FOR CLEANING & DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BOIDY FLUIDS. Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks or eye coverings. Cleaning Procedure: Blood & other body fluids must be thoroughly cleaned from surfaces & objects before application of the disinfectant. Disposal of Infectious Material: Blood & other body fluids should be autoclaved & disposed of according to federal, state & local regulations for infectious waste disposal. Contact Time: Leave surface wet for 10 minutes.

2. Leave for 10 minutes at room temperature; allow to air-dry, no rinsing or wiping is required (even on food contact surfaces).

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or contact with the bloodstream or normally sterile areas of the body, or (2) contacts mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

DIRECTIONS FOR USE:
1. Shake, apply product & wipe away.

TO DISINFECT & DEODORIZE:
1. Shake well and wet the surface with the product by sprayer, mop, brush, cloth or sponge (test for surface compatibility on inconspicuous area first).

2. Leave for 10 minutes at room temperature; allow to air-dry, no rinsing or wiping is required (even on food contact surfaces).

Keep Out of the Reach of Children
