SE66 DISINFECTANT

- Sanitizer
- Disinfectant
- Virucide
- Deodorizer
- Mildewstat (on hard non-porous, inanimate surfaces)

HOSPITAL DISINFECTION:

Add 3.5 ounces of SE66 Disinfectant per 5 gallons of water for disinfection against Staphylococcus aureus, Pseudomonas aeruginosa, Enterococcus faecalis, Bacillus cereus, Staphylococcus epidermidis, Listeria monocytogenes, Salmonella typhi, Shigella sonnei, and other Gram-negative rods. Keep in mind: the concentration of 200-400 ppm in when diluted in water up to 500 ppm hardness (CaCO3). At an effective concentration of 200 ppm active quaternary, SE66 Disinfectant kills HIV-1, HBV and HCV on pre-cleaned environmental surfaces/objects. SE66 Disinfectant is effective against Human Coronavirus, Porcine Respiratory & Reproductive Syndrome Virus (PRRSV), and SARS associated Coronavirus.

FOOD CONTACT SURFACE SANITIZATION DIRECTIONS

To sanitize pre-cleaned mobile items in public eating establishments, add 2 ounces of SE66 Disinfectant per 5 gallons of water (or equivalent dilution). (200-400 ppm active quaternary). Immerse all utensils for at least two minutes or for contact time specified by governing sanitary code.

PERSONAL PROTECTION:

When handling items soiled with blood or body fluids, wash your hands with soap and water immediately after touching these items. If soap and water are not available, clean hands with an alcohol-based hand sanitizer that contains at least 60% alcohol. If alcohol-based hand sanitizer is not available, clean hands with antimicrobial hand cleanser containing at least 1% non-ionic surfactant and 0.1% to 0.5% benzalkonium chloride.

STORAGE AND DISPOSAL

STORAGE: Store at temperatures of 59°F to 86°F (15°C to 30°C). Do not freeze.

DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of pesticides can cause serious injury or death. Pesticide wastes must be contained, the material then moved into containers and disposed of by approved methods.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of pesticides can cause serious injury or death. Pesticide wastes must be contained, the material then moved into containers and disposed of by approved methods.

ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY CONTAMINATED WITH INFECTIOUS MATERIALS:

Add 3 ounces of SE66 Disinfectant per 5 gallons of water (or equivalent dilution). (200-400 ppm active quaternary). Immerse all utensils for at least two minutes or for contact time specified by governing sanitary code.

DISPOSAL OF INFECTIOUS MATERIALS:

Pesticide wastes are acutely hazardous. Improper disposal of pesticides can cause serious injury or death. Pesticide wastes must be contained, the material then moved into containers and disposed of by approved methods.

PERSONAL PROTECTION:

When handling items soiled with blood or body fluids, wash your hands with soap and water immediately after touching these items. If soap and water are not available, clean hands with an alcohol-based hand sanitizer that contains at least 60% alcohol. If alcohol-based hand sanitizer is not available, clean hands with antimicrobial hand cleanser containing at least 1% non-ionic surfactant and 0.1% to 0.5% benzalkonium chloride.
