AMERCOAT®214
MARINE ANTIFOULING PAINT
INTENDED FOR USE IN COMMERCIAL SHIPYARDS ONLY

EPA Reg. No. 7313-13
EPA Est. No. 7313-AR-1

Active Ingredient:
Cuprous Oxide ............... 38.46%
Other Ingredients ............ 61.54%
Total ..................... 100.00%
Copper as metallic: 34.15%
Contains Petroleum Distillates

DIRECTIONS FOR USE:

1. When applying antifouling coatings over epoxy anticorrosive coatings, apply the first coat of antifouling while the epoxy anticorrosive is tack free, but still soft to thumb pressure. If the epoxy is too hard, apply another thin coat of epoxy and then apply the antifouling after the epoxy is tack free but still soft to thumb pressure. Failure to apply the antifouling coating while the epoxy is thumbprint soft may result in poor adhesion of the antifouling coating and eventual delamination.

2. Clean all application equipment with 1-10 thinner.

3. Stir material thoroughly and continue stirring occasionally during application to ensure pigment suspension.

4. Thin only for workability – no more than 1 pint thinner per gallon of material.

5. Apply a wet coat in even brush or roller strokes or spray passes, building the wet film thickness to achieve the recommended dry film thickness. Allow 4 hours dry time at 77°F (20°C) between coats. Allow 5 hours dry time at 77°F (20°C) before leasing.

6. Clean application equipment immediately after use with thinner.

Hygienic practices – Wash thoroughly after use and before eating, smoking or using washroom. Keep away from feed or food products. Launder contaminated clothing before use.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water by cleaning, disposal of wastes or allow chips and dust generated during paint removal to enter water.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Keep away from heat, sparks, arc and open flame. Avoid breathing vapor, dust, spray mist or contact with eyes and skin. Use only with adequate ventilation and protective equipment, such as goggles, face protection, gloves, full protective clothing and properly fitted, positive-pressure, air-supplied respirator, during mixing, spraying and drying. Until all vapors and mists are gone. There are reports that associate repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. In confined, poorly ventilated areas, use airline, hood-type respirator and explosion- and spark-proof equipment. Welding and cutting can produce hazardous fumes and gases. For fires, blanket flames with foam, carbon dioxide, dry chemical. For spills, eliminate all sources of ignition or sparks. Use absorbent cleanup materials; place in separate, closed, metal container and dispose of in accordance with all applicable regulations. Wear NIOSH certified, self-contained air-supplied respirators to prevent overexposure to vapors.

LIMITED WARRANTY
PPG warrants your satisfaction with the performance properties of this product if it is properly applied to a properly prepared surface in accordance with label directions. PPG MAKES NO OTHER EXPRESS WARRANTIES. IN THE EVENT THE PRODUCT FAILS TO CONFORM TO THIS WARRANTY, PPG AS ITS SOLE LIABILITY, AND IN LIEU OF ANY DIRECT OR INDIRECT INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES, WILL, AT YOUR OPTION, FURNISH REPLACEMENT PRODUCT OR REFUND THE PURCHASE PRICE – LABOR OR COSTS OF LABOR FOR THE APPLICATION OF ANY PRODUCT SPECIFICALLY ARE EXCLUDED. You must supply proof of purchase. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

To make a claim under this warranty, contact the store where you purchased the product or PPG industries inc., One PPG Place, Pittsburgh, PA 15272.
