**DIRECTIONS FOR USE:**

1. **Before the first use of this product, be sure to take the following steps:**
   - Adjust the pool water pH value to between 7.2 and 7.8 as determined by a suitable test kit.
   - Stabilize pool water to at least 30 ppm with Stabilizer as directed on the container label.
   - Using a feeder, floater or skimmer dispenser, immerse one tablet (or as many as required to achieve 10 ppm free available chlorine) in your pool water.

2. **Once you complete 1, 2 and 3 above, use this product to maintain the free residual chlorine level** continuously for each 5,000 to 10,000 gallons (19,000 to 38,000 liters) of water in your pool to prevent algae growth.

3. **If using a feeder:**
   - Make sure skimmer is completely clean and free of residue from other water treatment products.
   - Use only clean dry utensils to dispense this product.
   - Keep all foreign matter, including other water treatment products, away from this product.

4. **If using a floater:**
   - Use only clean dry utensils to dispense this product.
   - Do not mix this product with a small amount of water. Only add this product directly to pool water.

5. **If using a skimmer dispenser:**
   - Use only clean dry utensils to dispense this product.
   - Do not mix this product with a small amount of water. Only add this product directly to pool water.

6. **Superchlorinate or shock treat your pool water at least twice monthly (more often in warmer climates) during hot weather and peak bather loads using 2.5 to 4.0 ppm of available chlorine.**

**ENVIRONMENTAL HAZARDS:**

This product is an extremely concentrated form of a swimming pool sanitizing agent. This product is designed to dissolve slowly and at a uniform rate to eliminate the need of frequent feeding and maintenance. If it is stored in its original container, the product is not harmful to aquatic life. However, this product is harmful to plants and must be stored in a cool, dry, well-ventilated area. Do not contaminate food or feed by using it. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

- **Fume Hazard:**
  - Strong oxidizing agent. This product can increase fire intensity. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.
  - Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

- **Inhalation Hazards:**
  - Strong oxidizing agent. This product can increase fire intensity. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

- **Skin Absorption Hazards:**
  - Corrosive. Direct contact with this product is a severe burn. Avoid skin contact with this product.

- **Ingestion Hazards:**
  - Corrosive. This product can cause severe burns to the mouth, throat, and stomach. Do not give anything by mouth to an unconscious person. Do not attempt to induce vomiting. Call a poison control center or doctor immediately.

- **Eye Contact Hazards:**
  - Corrosive. Direct contact with this product is a severe burn. Avoid eye contact with this product.

- **Reactivity Hazards:**
  - Corrosive. This product can cause severe burns to the skin and eyes. Do not allow product to contact any foreign matter, including other water treatment products.

**PHYSICAL AND CHEMICAL PROPERTIES**

- **Color:**
  - Black

- **Odor:**
  - Odorless

- **Density:**
  - 5.1 g/mL

- **Solubility:**
  - Slight solubility in water

- **Stability:**
  - Stable

**STORAGE & DISPOSAL:**

- **Storage:**
  - Store this product in its original container in a cool, dry, well-ventilated area away from food, feed, and other materials. Keep away from children and pets.

- **Disposal:**
  - Do not empty this container into the drain system. This product is harmful to aquatic life. Prior to discharge, check with the local sewage treatment plant authority. For guidance contact your State or Federal regulatory agency.

- **Emergency Procedures:**
  - **In Case of Fire:**
    - Firefighters should wear positive pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
  - **Inhalation:**
    - Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.
  - **Eye Contact:**
    - Take off contaminated clothing. Rinse skin immediately with copious amounts of water for at least 15 minutes. If irritation persists, get medical attention.
  - **Ingestion:**
    - Do not induce vomiting. Rinse mouth and gargle. Call a poison control center or doctor for treatment advice.
  - **Skin Contact:**
    - Remove contaminated clothing and wash clothing before reuse. Rinse skin with copious amounts of water for at least 15 minutes. If skin irritation persists, get medical attention.
  - **Spills or Leaks:**
    - Contaminated containers may be hazardous. Dispose of spill in a suitable manner.

- **Personal Protective Equipment:**
  - **Respiratory Protection:**
    - If using this product in a manner that may result in inhalation of its fumes, use a respirator with a P100 or higher rated particulate filter.
  - **Eye Protection:**
    - Wear protective goggles while using this product.
  - **Skin Protection:**
    - Wear gloves to protect hands from contact with this product.

- **Additional Precautions:**
  - Do not store this product on concrete or unfished concrete surfaces. Do not allow this product to come in contact with any metal or concrete surface or in pools or spas. Do not mix this product with a small amount of water. Only add this product directly to pool water.

- **Health Statements:**
  - This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State or Federal regulatory agency.
  - This product contains a flammable liquid. Do not store or use near heat or open flame.
  - Do not store or use near open flames. Do not use or store near electrical equipment or sources of sparks.

- **Emergency Phone Numbers:**
  - 1-800-654-6911

- **Material Safety Data Sheet (MSDS):**
  - Obtain the Material Safety Data Sheet (MSDS) from the manufacturer or distributor before using this product.

- **Preparation of the Water:**
  - Before use, check the water quality and make any necessary adjustments. Do not use this product if the water quality is too low. Use the recommended water conditions for this product.

- **Environmental Considerations:**
  - This product is designed to reduce chemical consumption and to save energy. Use only as directed.

- **EPA Estimation:**
  - Label use of 3” Tablets is 1-1/2 tablets for every 10,000 gallons (37,850 liters) of pool water.

- **EPA Estimation:**
  - Label use of 3” Tablets is 1-1/2 tablets for every 10,000 gallons (37,850 liters) of pool water.

- **EPA Estimation:**
  - Label use of 3” Tablets is 1-1/2 tablets for every 10,000 gallons (37,850 liters) of pool water.

- **EPA Estimation:**
  - Label use of 3” Tablets is 1-1/2 tablets for every 10,000 gallons (37,850 liters) of pool water.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

NOTE TO PHYSICIAN:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Call a poison control center or doctor immediately for treatment advice. Have the following information ready:

• Product name and material(s) involved
• When the contact occurred
• Whether contact was through skin, eyes or mouth
• Amount of material involved
• Any unusual effects or symptoms

IN CASE OF CONTACT WITH THE SKIN:

• Wash skin with soap and water
• Do not use other solvents
• For persistent contact, wash with soap and water

IN CASE OF CONTACT WITH THE EYES:

• Rinse eyes immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IN CASE OF INHALATION:

• Move person to fresh air. If person is not breathing, call 911 or an ambulance, and have person given an oxygen mask or breathing device.

IF SWALLOWED:

• Do not induce vomiting unless told to do so by a doctor.
• Give 1 to 2 cups of water if able to swallow. Do not give anything by mouth to an unconscious person.

IF IN EYES:

• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present and easy to remove, then rinse another 5 minutes. Seek medical help.

IF INHALED:

• Move person to fresh air. If breathing is difficult, give oxygen. Seek medical help.

IF INGested:

• Do not induce vomiting unless told to do so by a doctor.

FIRST AID:

• Remove contaminated clothing and wash clothing before reuse.
• Wash hands after handling and before eating, drinking, chewing gum, using tobacco.
• For additional protection of skin, wear long sleeves and long pants.
• Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves.
• In the event of eye irritation, flush with running water for 15 minutes.
• If using equipment to transport, make sure skimmer is completely clean and free of residue from other water treatment products. If used in a skimmer, do not allow product to contact other water treatment products. If used in a skimmer, do not add water to this product. Add only into water.
• Use only clean dry utensils to dispense this product.
• Keep all foreign matter, including other water treatment products, away from this product.
• Do not contaminate food or feed by this product.
• Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves.
• Open in a well-ventilated area. Avoid breathing dust and fumes.
• Do not mix this product with a small amount of water. Only add directly to your water for an extended period of time if it contains a tablet or tablet residue. Use only clean dry utensils to dispense this product. Add only into water.
• Violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water.
• Do not allow product to contact any foreign matter, including other water treatment products.
• Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves.
• In the event of eye irritation, flush with running water for 15 minutes.

EXPOSURE TO THE SKIN, EYES, OR LUNGS CAN RESULT IN:

• Eye irritation
• Skin irritation
• Upper respiratory irritation

ENVIRONMENTAL HAZARDS:

This product may contain toxicologically significant concentrations of cyanide, lead, mercury, organophosphate, and/or other hazardous substances.
