### Directions for Use:

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing dogs, do not replace collar until the puppies are at least 6 weeks old. Sensitivity may occur after using an APE pesticide product for pets. Some animals may become irritable by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the animal. If signs of sensitivity occur, remove the collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or similar chemicals. However, flea and tick collars may be immediately replaced with new collars. This collar is intended for use only as an insecticide/IGR generator. The collar will begin to kill fleas, ticks and flea eggs and larvae immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous flea and tick protection under normal conditions replace the collar every 7 months. Under conditions where pets are exposed to severe flea and tick infestations, it may be necessary to replace the collar more frequently. Wetting will not impair the collar’s effectiveness or the pet’s protection. If the pet goes swimming or is out in the rain it is not necessary to remove the collar. The Adams® Flea & Tick Control Collar for Small Dogs may be worn with a regular collar.

### Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

- **Pesticide Storage:** Store this product in a cool, dry place that is inaccessible to children.
- **Pesticide Disposal:** If empty: Nonrefillable container. Do not reuse or resell this container. Offer for recycling, if available. If partly filled: Call your local waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
