TO OPEN CUT ALONG DOTTED LINE WITH SCISSORS

BIO-LAB, INC. P.O. Box 300002

TOTAL: 100.0%

OTHER INGREDIENTS: 22808BIO

Active Ingredient: 22808BIOFLM

Non-Active Ingredients: 22808BIO

Calcium Hypochlorite: 57.8%

K22808BIOFLM: 42.2%

OTHER PRODUCT.

To kill algae when algae growth is evident in the pool: Brush all pool surfaces with a surface sanitizer. Apply this product at a rate of 1 pound (see Application Method) per 20,000 gallons every week (alternatively deep end of the pool when the pool is not in use (preferably at night). Reapply after heavy rain or heavy bather loads.

Superchlorination is needed to maintain levels of combined chlorine are encountered. Apply this product at a rate of 2 pounds (see Application Method) per 12,000 gallons of water into the deep end of the pool when the pool pump is in operation. Continue to operate recirculation system for 1 hour around the edge of the pool. Dissolve this product outdoors in a clean plastic bucket, stirring with a clean plastic or wooden spoon. Add this product to water; NEVER add water to product. This product should be used weekly as a maintenance shock when needed to raise the free chlorine levels in the pool above levels of 4 ppm. For swimming pool shock treatment, BioGuard® has a wide variety of products that are required to maintain crystal blue sparkling water. The BioGuard Care System has three important parts that help you maintain sparkling water:

- A Sanitizer to kill bacteria
- A Shock to destroy contaminants
- A Stabilizer to maintain levels of free and total chlorine

Utilizing an advanced patented technology, this product oxidizes organic contaminants that cause cloudy water, musty odors and eye irritation.

DANGER: NEVER MIX THIS PRODUCT WITH ANY BACTERIOCIDAL OR BACTERICIDE products. Such use may cause a violent reaction leading to fire or explosion. Do not use any other chemical in the same dispensing container or with the same water recirculation equipment. Add this product to any dispensing device containing remnants of any other chemical reaction and generate heat, hazardous gas, possible fire and explosion. Use separate dispensing devices for each chemical.

Precautionary Statements:

Do not use around any fish or aquatic organisms. This pesticide is toxic to fish and aquatic organisms. In case of decomposition, isolate bag if possible and flood area with large amounts of water to dissolve all material. Offer for recycling, if available. Triple rinse container (or refill this container). Offer for recycling, if available. Triple rinse container (or refill this container). Offer for recycling, if available. Triple rinse container (or refill this container).

Environmental Hazards:

This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL:

STORAGE: Store in a cool, dry, well-ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate bag if possible and flood area with large amounts of water to dissolve all material. Offer for recycling, if available. Triple rinse container (or refill this container).

DISPOSAL: Offer for recycling, if available. Triple rinse container (or refill this container).

Labeling Requirement: This product contains an ingredient that is restricted by the Clean Water Act (Section 307). Do not use this product in or around any surface water body or pool. If you have any questions about the use of this product, contact your local environmental protection agency. This product is a liquid chlorine compound that contains no heavy metals before using this product. If present, add BioGuard Scale Inhibitor as directed and in conjunction with this product, always follow directions on those products.

NET WT. 1 LB. (454 g)

NOTE: In shallow pools with a depth less than 4 feet or when there is a large water spill from the pool into the surrounding areas, add this product to any dispensing device containing remnants of any other chemical reaction and generate heat, hazardous gas, possible fire and explosion. Use separate dispensing devices for each chemical.

CONSUMER CONTACT INFORMATION: For consumer service inquiries, please call BioGuard® customer service at 800-932-5943 or visit the website at www.bioguard.com.
