Bisurex Disinfectant Wipes are intended for use in hospitals, medical, dental and veterinary offices, laboratories, industrial clean rooms, nursing homes, ambulances, police vehicles, hotels, schools, homes, health spas, grocery stores, shopping centers, boats, autos, and toilet seats. Use Bisurex Disinfectant Wipes on inanimate surfaces and equipment such as stainless steel, formica counter glass tables, carts, baskets, counters, cabinets, telephones, grocery cart handles, grocery cart clip art, snap lid carries, shopping cart handles, and other hard non-porous surfaces.

**DIRECTIONS FOR USE:**
A BISYNTHETIC PHENOL SOLUTION IMPREGNATED IN A UNIFORM RELEASE TOWELETTE

**Cleaning and Disinfecting Directions:** Remove one Bisurex Disinfective Wipe, unfold, wipe surface to remove excess organic debris and thoroughly clean surface. Use a second Bisurex Disinfective Wipe to thoroughly wet the surface. Ensure surface remains wet for 10 minutes to destroy or inactivate bacteria, viruses, fungi, etc. Surfaces that might harbor or retain blood or body fluids (e.g., showers, sinks, toilets, medical equipment) require an initial treatment with a high-level disinfectant. Bisurex Disinfectant Wipes are ideal for use on non-food contact surfaces on carts, such as grocery cart handles and grocery cart child seats. Must remove protective seal. Locate wipe at the center of the roll and insert corner of wipe through opening in lid. Replace lid. Pull sheet up and slightly to the side. The next wipe pops up automatically. Always snap lid shut securely after use to prevent moisture loss.

**ACCESS TO KILLS THE FOLLOWING:**
Tuberculocidal* • Virucidal* • Bactericidal • Fungicidal
Kills Pandemic 2009 H1N1 influenza A virus (formerly called swine flu)

- 0-phenylenepherol .................................................. 0.28%
- n-benzyl-p-chlorophenol ................................... 0.03%
- Inert Ingredients ...................................................... 99.69%

**TOTAL:** 100.00%

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

**Net Contents:** 2 lbs. 4 oz.
240 towelettes are pre-moistened, 6” x 6.75”

**REORDER NO.** B240

**DISTRIBUTED BY:**

**HAZARD TO HUMANS AND DOMESTIC ANIMALS**
PRECAUTIONARY STATEMENT

**Disposal of Infectious Material:**
Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

**CONTENTS:**
46851-10-5030
240 towelettes
6” x 6.75”

**Special Instructions for Cleaning and Decontamination Against HIV-1 on Surfaces/Objects Soiled with Blood/Body Fluids:**

**Bisurex Disinfectant Wipes** kill HIV on precleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

**Warning:** Handwashing and Personal Protection:

**Cleaning Procedure:**
Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant.

**Dispersion of Infectious Material:**
Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant.

**Storage and Disposal:**
Do not contaminate water, food or feed by storage or disposal. Do not reuse towelettes. Dispose of used towelette and empty container in regular trash.

**PESTICIDE STORAGE:**
Store at room temperature.

**PESTICIDE DISPOSAL:**
Do not use towelettes. Dispose of used towelette and empty container in trash.

**CONTAINER DISPOSAL:**
Rinse and discard empty container. Do not reuse empty container.

**POTENTIAL HAZARDS:**
