The information in this MSDS is based on data available to us as of the revision data given herein, and believed to be correct. Judgments as to the suitability of information herein for the individual's own uses or purposes are necessarily the individual's own responsibility. Although reasonable care has been taken in the preparation of such information, Cleary Chemicals LLC extends no warranties, makes no representations, and assumes no responsibility as to the accuracy or suitability of such information for application to the individual’s purposes or the consequences of its use.

---

**FIRST AID**

**IF ON SKIN OR CLOTHING:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

**IF IN EYES:**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**
- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF INHALED:**
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

---

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See Booklet for additional precautionary statements.

---

**HOTLINE NUMBERS**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**FOR 24-HOUR EMERGENCY MEDICAL ASSISTANCE:**
- Call CHEMTREC at 1-800-424-9300 or the Poison Control Center - 1-800-222-1222

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if absorbed through skin, swallowed or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

All mixers, loaders, applicators and other handlers must wear:

• Long-sleeved shirt and long pants
• Socks
• Shoes
• Chemical-Resistant gloves

User Safety Requirements

Follow the manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

• Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is moderately toxic to aquatic invertebrates and fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate. Do not allow runoff into lakes, streams, ponds or public waterways. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

Granules exposed on soil surface may be hazardous to fish and aquatic invertebrates. Collect granules spilled during loading. Observe the most restrictive of labeling limitations and precautions of all products used in mixtures.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions on this label about personal protective equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection

SECTION 15: REGULATORY INFORMATION

U.S Federal Regulations

FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act): All pesticides are governed under FIFRA. Therefore, the regulations presented below are pertinent only when handled outside of the normal use and applications of pesticides. This includes waste streams resulting from manufacturing/formulation facilities, spills or misuse of products, and storage of large quantities of products containing hazardous or extremely hazardous substances.

CERCLA (Comprehensive Response Compensation, and Liability Act): NA

EPCRA (Emergence Planning and Community Right-to-Know Act): None

OSHA (Occupational Safety and Health Administration): NA

RCRA (Resource Conservation and Recovery Act): None

SARA Title III (SUPERFUND Amendments and Reauthorization Act):

Section 302 (EHS) TPQ: NONE

Section 304 (EHS) RQ: NONE

Section 311/312 CATEGORIES

1. Immediate (Acute) Health Effects; YES
2. Delayed (Chronic) Health Effect; NO
3. Fire Hazard; NO
4. Sudden Release of Pressure Hazard; NDA
5. Reactivity Hazard; NDA

TSCA (Toxic Substance Control Act): This product is exempt from TSCA Regulation under FIFRA Section 3 (2)(B)(ii) when used as a pesticide.

State Regulations: Each state may promulgate standards more stringent than the federal government. This section cannot encompass an inclusive list of all state regulations. Therefore, the user should consult state or local authorities.

International Regulations:

EEC Classification: NA

Risk Phrases: NA

Safety Phrases: NA
**NON-AGRICULTURAL USE REQUIREMENTS**

The requirements in the box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses.

**Affirm WDG** is not for use on turf being grown for commercial seed production. **Affirm WDG** is not for homeowner use to treat food crops. **Affirm WDG** is for use in controlling or suppressing certain diseases on cucurbit vegetables, fruiting vegetables, ginseng, grapes, pome fruits, strawberries, and seedlings or transplants of cucurbit vegetables and fruiting vegetables in a Greenhouse, Lath or Shade house, Ornamentals (Greenhouse, Lath or Shade house, Field, Nursery, Container, and Residential and Commercial Landscapes), and Turf (including golf courses, sod, residential lawns, parks, athletic fields, and commercial and institutional grounds) composed of cool and warm season grasses such as Bluegrass, Bentgrass, Fescue, Ryegrass, Bermudagrass, St. Augustinegrass, Zoysiagrass, or their mixtures.

Apply Affirm WDG as a preventative or curative treatment in conjunction with good management practices.

**RESISTANCE MANAGEMENT RECOMMENDATIONS**

**Affirm WDG** contains a Group 19 fungicide. Fungal isolates with acquired resistance to Group 19 may eventually dominate the fungal population if Group 19 fungicides are used repeatedly in the same field or in successive years as the primary method of control for targeted species. This may result in partial or total loss of control of those species by **Affirm WDG** or other Group 19 Fungicides.

To delay fungicide resistance, consider:
- Avoiding the consecutive use of **Affirm WDG** or other target site of action Group 19 fungicides that have a similar target site of action, on the same pathogens.
- Using tank-mixtures or premixes with fungicides from different target site of action Groups as long as the involved products are all registered for the same use and are both effective at the tank mix or prepack rate on the pathogen(s) of concern.
- Basing fungicide use on a comprehensive IPM program.
- Monitoring treated fungal populations for loss of field efficacy.
- Contacting your local extension specialist, certified crop advisors, and/or manufacturer for fungicide resistance management and/or IPM recommendations for specific crops and resistant pathogens.

**MIXING AND APPLICATION**

When diseases not specified on this label are present or expected, it is appropriate to mix **Affirm WDG** with appropriately labeled fungicides. When tank mixing **Affirm WDG** with other products, observe all precautions and limitations on each separate product label. It is always advisable to conduct a tank mix
compatibility test when you plan to mix this product with other products. To determine the physical compatibility of this product with other products, use a jar test. Using a quart jar, add the proportionate amounts of the products to approximately one quart of water with agitation. Add dry formulations first, then flowables, then emulsifiable concentrates last. After thorough mixing, allow this mixture to stand for 5 minutes. If the combination remains mixed or can be readily remixed, it is physically compatible. Once compatibility has been proven, use the same procedure for adding required ingredients to the spray tank. To assess the potential for phytotoxicity, test tank mixtures on a small number of plants prior to more widespread application.

Do not apply this product through any type of irrigation system.

Mixing instructions for AFFIRM™ WDG:
• Fill spray tank with water to ½ of the intended final volume.
• Start spray tank agitation.
• Add the appropriate amount of product to the tank according to the rates in the following tables. Follow the directions above for mixing other products in the spray tank.
• Agitate to ensure thorough mixing while adding the remaining required water.
• DO NOT allow the spray mixture to stand without agitation.

Mix only the amount of spray solution needed to treat the desired area.

For optimum control of labeled diseases, apply AFFIRM™ WDG with sufficient water to provide a thorough coverage.

CUCURBIT VEGETABLES
[Chayote (fruit), Chinese waxgourd (Chinese preserving melon), Citron melon, Cucumber, Gherkin, Gourd, edible (includes hyotan, cucuzza, hechima, Chinese okra), Momordica spp. (includes balsam apple, balsam pear, bitter melon, Chinese cucumber), Muskmelon (includes true cantaloupe, cantaloupe, casaba, crenshaw melon, golden pershaw melon, honeydew melon, honey balls, mango melon, Persian melon, pineapple melon, Santa Claus melon, and snake melon), Pumpkin, Squash, summer (includes crookneck squash, scallop squash, straightneck squash, vegetable marrow, zucchini), Squash, winter (includes butternut squash, calabaza, hubbard squash, acorn squash, spaghetti squash), Watermelon]

Notes:
• Use in alternation with fungicides that have different modes of action.
• Do not apply more than 5 applications of AFFIRM™ WDG (3.5 oz ai/acre) per season.
FRUITING VEGETABLES (Except Cucurbits)

Disease Control Rate Application Notes

Powdery Mildew 6.2 oz/acre
(Leveillula taurica, Oidiospus sipula) (0.7 oz ai/acre)

Botrytis Rot
(Botrytis sp.)

Early Blight
(Alternaria solani)

Disease Suppression

Anthracnose
(Colletotricum coccodes)

Notes:
• Use in alternation with fungicides that have different modes of action.
• Do not apply more than 5 applications of AFFIRM™ WDG (3.5 oz ai/acre) per season.

GINSENG (Except California)

Foliar Disease Control Rate Application Notes

Alternaria blight 6.2 oz/acre (0.7 oz ai/acre)
(Alternaria panax)

Botrytis blight
(Botrytis cinerea)

Notes:
• Apply as a foliar spray every 7–10 days.
• Apply prior to disease development and when conditions are conducive for disease.¹

Root and Crown Disease Control Rate Application Notes

Cylindrocarpon root rot
(Cylindrocarpon destructans) 6.2 oz/acre (0.7 oz ai/acre)

Rhizoctonia root and crown rot
(Rhizoctonia solani)

Notes:
• Apply within 2 weeks following plant emergence and continue throughout the season.
• Consult your local extension agent or local recommendations for information relating to proper timing for control of these diseases.
• Use in alternation with fungicides that have different modes of action.
• Do not apply more than 3 applications of AFFIRM™ WDG (2.1 oz ai/acre) per season.

Sweep up spilled material and place in covered, dry container. Wash spill response materials thoroughly before reuse. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label. Use strictly in accordance with label precautionary statements and directions. READ AND OBSERVE ALL PRECAUTIONS ON PRODUCT LABEL. Handle and open container with care. Avoid inhaling this material. Avoid eye and skin contact with this material. Wash contaminated clothes thoroughly before reuse. Use with adequate ventilation. Wash thoroughly with soap and water after handling. Keep container closed or equipped with a local air exhauster. Handle the container carefully. Do not drop or drag the container. Avoid impacts to the container. Store container in dry conditions without direct sunlight.

Eye Protection: Wear suitable eye protection.
Respiratory/Ventilation Requirements: Dust-proof mask.
Skin Protection: Wear appropriate protective clothing and gloves to prevent skin contact.

### GRAPES

**Botrytis Bunch Rot**
*Botrytis cinerea*
- Mix in appropriate spray volume appropriate for sufficient coverage.
- For Botrytis Bunch Rot control, spray product at veraison and 7 days prior to harvest.
- For Powdery Mildew control, begin sprays preventatively and continue as needed on a 14 day interval.
- 0 day Preharvest Interval.
- Do not apply by air.

**Powdery Mildew**
*Uncinula necator*
- For Powdery Mildew suppression, begin sprays preventatively and continue as needed on a 14 day interval.

### POME FRUITS

**Powdery Mildew**
*(Uncinula necator)*
- Use in alternation with fungicides that have different modes of action.
- Do not apply more than 3 applications of AFFIRM™ WDG (2.1 oz ai/acre) per season.
- Not for use in California

**Powdery Mildew**
*(Phyllactinia mali)*
- For Powdery Mildew suppression, begin sprays preventatively and continue as needed on a 14 day interval.

**Alternaria Leaf Spot**
*(Alternaria mali)*
- Use in alternation with fungicides that have different modes of action.
- Do not apply more than 3 applications of AFFIRM™ WDG (2.1 oz ai/acre) per season.

**Blotch**
*(Diplocarpon mali)*
- Use in alternation with fungicides that have different modes of action.
- Do not apply more than 3 applications of AFFIRM™ WDG (2.1 oz ai/acre) per season.

**Scab**
*(Venturia sp.)*
- Use in alternation with fungicides that have different modes of action.
- Do not apply more than 3 applications of AFFIRM™ WDG (2.1 oz ai/acre) per season.

### AFFIRM™ WDG

#### SECTION 3: HAZARDS IDENTIFICATION

**CAUTION:**
- CAUSES MODERATE EYE IRRITATION
- AVOID CONTACT WITH EYES/SKIN/CLOTHING
- AVOID BREATHING SPRAY MIST
- KEEP OUT OF REACH OF CHILDREN

**Acute Health Hazards**
- **Eye:** Causes moderate eye irritation. The degree of the irritation/injury will depend upon the amount and duration of exposure.
- **Skin:** Harmful if absorbed through the skin. Avoid contact with skin and clothing. Wash thoroughly with soap and water after handling. Prolonged exposure may cause skin sensitization.
- **Inhalation:** Harmful if inhaled.

**Chronic Health Hazards (Including Cancer):** Chronic exposures to low level amounts of this material are not carcinogenic.

**Teratology (Birth Defects) Information:** No evidence of carcinogenicity or other treatment related effects was observed in animal testing.

**Mutagenicity:** No evidence of mutagenicity was observed during animal testing.

**Reproductive and Developmental:** No evidence of reproductive or developmental toxicity was observed during animal testing.

#### SECTION 4: FIRST AID MEASURES

**Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**Inhalation:** Move person to fresh air. If person is not breathing, call 9-1-1 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**Ingestion:** Call poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

STRAWBERRIES

Disease Control Rate Application Notes

Anthracnose Leaf and Fruit Rot
(Colletotrichum sp.)

Botrytis Fruit Rot
(Botrytis cinerea)

Powdery Mildew
(Sphaerotheca macularis)

Notes:
• Use in alternation with fungicides that have different modes of action.
• Do not apply more than 3 applications of AFFIRM™ WDG (2.1 oz ai/acre) per season.

*Mix in appropriate spray volume appropriate for sufficient coverage.
• Begin applications preventatively and continue as needed on a 7–10 day interval.
• 0 day Preharvest Interval.
• Do not apply by air.
• Use of adjuvant may enhance coverage.

ORNAMENTALS*

Foliar Disease Control Rate Application Notes

Anthracnose
(Colletotrichum)

*Botrytis blight
(Botrytis cinerea)

Curvularia

Downy Mildew
(Pernospora sp., Plasmopara sp.)

Powdery Mildew
(Oidium sp., Erysiphe sp., Sphaerotheca sp.)

Rhizoctonia aerial blight
(Rhizoctonia solani)

*Alternaria blight
(Alternaria panax)

Petiole Rot
(Myrothecium)

Apple scab
(Venturia inequalis)

Notes:
• Apply as a full coverage foliar spray every 7 – 10 days with sufficient water for plant type and maturity (50-300 gallons/acre).
• Apply prior to disease development and when conditions are conducive to disease development. Consult your local extension agent or local recommendations for information relating to proper timing for control of these diseases.**

Root and Crown Disease Control Rate Application Notes

***Rhizoctonia root and crown rot
(Rhizoctonia solani)

Black Root Rot
(Thielaviopsis)

*Apply as a soil drench every 14 – 28 days.
Notes:
• * Control
• ** Consult your local extension agent or local recommendations for information relating to proper timing for control of these diseases.
• *** Includes Christmas tree (Nursery and plantation), non-bearing fruit vines, non-bearing fruit trees, and non-bearing nut trees
• Use in alternation with fungicides that have different modes of action.

**Warranty and Disclaimer Statement**

1. The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Such risks may arise from weather conditions, soil factors, off-target movement, unconventional farming techniques, the presence of other materials, the manner of use or application, or other unknown factors, all of which are beyond the control of Cleary Chemicals LLC (Cleary), and can cause crop injury, injury to non-target crops or plants, ineffectiveness of the product, or other unintended consequences. To the extent consistent with applicable law, all such risks shall be assumed by the user or buyer.  
2. Cleary warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks described above, when used in accordance with the Directions for Use under normal conditions.  
3. This warranty does not extend to the use of this product contrary to label instructions or under conditions not reasonably foreseeable to Cleary, and is subject to the inherent risks described above. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, CLEARY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, CLEARY, MANUFACTURER, AND SELLER DISCLAIM AND SHALL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE, HANDLING, APPLICATION, STORAGE, OR DISPOSAL OF THIS PRODUCT OR FOR DAMAGES IN THE NATURE OF PENALTIES, AND THE USER AND BUYER WAIVE ANY RIGHT THAT THEY MAY HAVE TO SUCH DAMAGES. NO AGENT, REPRESENTATIVE OR EMPLOYEE OF CLEARY IS AUTHORIZED TO MAKE ANY WARRANTY, GUARANTEE OR REPRESENTATION BEYOND THOSE CONTAINED HEREIN OR TO MODIFY THE WARRANTIES CONTAINED HEREIN.  

**STORAGE AND DISPOSAL**

- Do not contaminate water, food or feed by storage or disposal.  
- **PESTICIDE STORAGE:** Store in dry place away from food or feed.  
- **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.  
- **CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Offer for recycling, if available, or dispose of empty bag in a sanitary landfill or by incineration, or, if allowed, by State and local authorities, by burning. If burned, stay out of smoke.
