**APPLICATION DIRECTIONS**

FourStar™ Briquets are a highly effective and convenient effective against mosquitoes in a variety of habitats for up to 90 days or more. FourStar Briquets release effective levels of Bti and Diabrotica subrotunda to the water surface over time as the briquet dissolves.

**APPLICATION SITES**

FourStar Briquets can be applied to areas that contain aquatic life, fish and plants, as well as areas used by or in contact with humans, animals, horses, bison, birds, or wildlife. Examples of application sites include: water storage basins, ponds, lakes, streams, rivers, canals, irrigation canals, irrigation ponds, basins, swamps, etc. Other examples of application sites include: water storage basins, ponds, lakes, streams, rivers, canals, irrigation canals, irrigation ponds, basins, swamps, etc. Other examples of application sites include: water storage basins, ponds, lakes, streams, rivers, canals, irrigation canals, irrigation ponds, basins, swamps, etc.

**APPLICATION RATES**

For control of mosquito larvae, place one (1) briquet in areas to up to 100 square feet of surface area. For large areas, apply 1 additional briquet for each additional 100 square feet of water surface, regardless of water depth. When mosquito populations are high, water is heavily polluted, and/or algae are present, double the above application rate.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Store in a cool, dry place. Pesticide Disposal: When the product is no longer needed, dispose of the residue by burning or otherwise using it in a manner that is not likely to cause any harm to humans, or animals, or fish. Container Disposal: For biodegradable container, do not burn or call your local waste management facility for disposal instructions.
