- BACTERICIDAL
- FUNGICIDAL
- VIRUCIDAL
- TUBERCULOCIDAL
- PREVENTS MOLD AND MILDEW
- ELIMINATES ODORS

Institutional - Food Processing - Residential

AN EFFECTIVE CLEANER, DISINFECTANT AND DEODORIZER FOR INSTRUMENTS, AND EQUIPMENT ON PRE-CLEANED, HARD, NON-POROUS SURFACES in hospitals, treatment and patient rooms, operating rooms, schools, salons, restaurants, boats, planes, buses and the home. Recommended for medical and dental equipment, bowls, surgical counter tops, mattresses, telephones, keyboards, furniture, wheelchairs, walkers, sinks, floors, walls, light switches, linen hampers, shower stalls, toilet seats, trash containers and damp and dusty areas, including animal areas. Self-sanitizes against odor-causing bacteria and fungi. Reduces the hazards of cross-contamination.

PASSAG Agac Efficacy Standards for Disinfection in the Presence of D$_1$O3 Organism for Institutional, Hospital and Farm Premise Use:

- **Virucidal:** Avian Influenza A (H5N1), Influenza A, Japan 05/17/05 Asian strain, Cytomegalovirus, Parvo Type 1 virus, Vaccinia, Canine parvovirus, herpes simplex types 1 and 2, and polio virus. (See Sporicidin Bulletin No. 30.)
- **Fungicidal:** Cladosporium spore, Alternaria spore, Sclerotinia spore, Pseudomonas aeruginosa, Methicillin resistant Staphylococcus aureus (MRSA), Vancomycin resistant Enterococcus faecium (VREF), E. coli, Strepococcus pyogenes, Streptococcus salivarius, Mycobacterium tuberculosis.
- **Fumigidal:** Chlamydia psittaci, Aspergillus rizii; Penicillium notatum; Trichophyton mentagrophytes (Athlete's Foot fungus).

ACTIVE DEODORIZER: Provides continuous residual bactericidal activity against odor-causing bacteria for up to 4 months, if not removed from surfaces including plastics, latex, vinyl, glass, treated wood, metal, glazed porcelain, glazed tile and paint.

SPORICIDIN DISINFECTANT TOWELETTES are permanent when used as directed for disinfection but offer in composition from other Sporicidin products.

DIRECTIONS FOR USE: It is a violation of U.S. Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT DILUTE OR MIX WITH OTHER CHEMICALS
PRECLEAN surfaces using Sporicidin Disinfectant Solution to remove soil and film. Wipe with dry paper towel, cloth or sponge.
TO DISINFECT and DEODORIZE, wipe surfaces which cannot be scrubbed, such as electrical switches, door knobs, faucets, salt and pepper shakers, knobs, dashboards and other "high touch" surfaces in and around farm equipment, animal and poultry housing, barns, kennels, breeding pens, livestock, trucks and vessels. Thermally wet pre-cleaned surface with Sporicidin Disinfectant Towellettes and allow surface to remain wet for 10 minutes. Use as many towelettes as necessary for the treated area to remain wet for at least 10 minutes at room temperature (50°F) or up to kit listed organisms.

TO KILL, CLEAN AND PREVENT MOLD AND MILDEW: Use procedure stated above Towelette application if new growth appears.

TO SPOT CLEAN, DEODORIZE AND REMOVE DERMIS FROM CARPET AND FABRICS: Rake or scrub area to be treated with Sporicidin Disinfectant Solution to remove soil. Wipe dry with clean cloth or towel.

FOR FOOD PROCESSING PLANTS: Follow pre-cleaning and decontamination instructions outlined above to disinfect hard, non-porous surfaces and materials in food handling areas, including poultry and meat packing facilities, slaughterhouses, etc. All surfaces and materials that came in contact with food must be washed with soap and detergent and rinsed with potable water prior to use.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID: If in eyes, contact center lens. Hold eye open and slowly rinse with water. If irritation persists contact physician or poison center control.

STORAGE AND DISPOSAL: Store at room temperature. Nonrefrigerate container. Do not reuse or refill this container. Discard empty container in trash or offer for recycling if available.

FOR HOSPITAL DISINFECTION: This product is not to be used as a terminal sterilant at high level disinfection on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or that contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to provide routine intermediate, critical or semi-critical medical devices prior to sterilization or high level disinfection.
