HOT LINE NUMBER - Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-321-1FMC (1362).

For product information call (800) 321-1FMC (1362).
ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or rinsate.

PHYSICAL OR CHEMICAL HAZARDS
Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product in or on electrical equipment due to the possibility of a shock hazard. Incompatible with oxidizing agents.

Do not spray on plastic, painted or varnished surfaces or directly into electronic equipment such as radios, TVs, computers, etc.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS
- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- THIS PRODUCT IS INTENDED FOR INDOOR USE ONLY.
- Do not use in aircraft cabins.
- Do not allow adults, children, or pets to enter the treated area for at least 15 minutes, until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the treated area during application.
- Do not remain in treated area. Exit area immediately and remain outside the treated area until vapors, aerosols, and/or mists have dispersed.
- Remove cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.
- Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
- When used in classrooms: Do not apply this product while classrooms are occupied. Vacate premises for at least 15 minutes following treatment before returning occupants.
- When used in medical care facilities: Remove all patients prior to treatment. Thoroughly ventilate treated area for at least 2 hours following treatment before reentering.
- Use only as a surface spray that will contact adults, children, or pets.
- For spray applications to articles: Do not wet articles to the point of runoff or drip. Do not use treated articles until spray has dried.
- Do not apply directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain before or after application.
- Remove pets, birds and cover fish aquariums before spraying.
- Do not allow product to come into contact with oxidizing agents.

Hold container upright with nozzle pointing away from you. Press valve down and spray as directed. To avoid possible staining of fabrics or surfaces, do not spray at close range.

FLYING INSECTS: Flies, (Cluster Flies, Fruit Flies, Horn Flies, House Flies, Stable Flies,) Mosquitoes, Mud Daubers, Small Flying Moths, Wasps, Hornets, Gnats--Calculate cubic feet of space to be treated. Use all doors and windows. Spray in a sweeping motion to all parts of the room. Apply for 1-3 seconds per 1,000 cubic feet of space. Keep room closed for at least 15 minutes following treatment. Open doors and windows, and thoroughly ventilate treated area before reoccupying. Repeat treatment as necessary.

CRAWLING INSECTS: Ants, Booklice, Centipedes, Clover Mites, Crickets, Flies, Millipedes, Cockroaches, Crickets, Silverfish, Sawbugs, Spiders - General Volumetric Treatment: Open cabinets and doors in area to be treated. Shut off lights, fans, and close doors and windows before spraying. Spray for 20 seconds per 1,000 cubic feet of space. Direct spray toward areas suspected of harboring insects. Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible. Keep room closed for at least 15 minutes following treatment. Open doors and windows, and thoroughly ventilate treated area before reoccupying. Repeat treatment as necessary.

FOR COCKROACHES: For best results, spray directly on cockroaches and thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces, under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected to be hiding. Also spray around doors and windowframes. Repeat as necessary.

Ants, Booklice, Centipedes, Clover Mites, Crickets, Flies, Millipedes, Roaches, Silverfish, Sawbugs and Spiders: Inject into cracks and crevices in all hiding places behind baseboards, sinks, cabinets, meter boxes, doorknobs, and windows. GENERAL VOLUMETRIC TREATMENT: Open cabinets and doors in areas to be treated. Turn off air conditioners and fans and close doors and windows before treating. Apply at the rate of 20 seconds per 1,000 cu. ft. of space. Dispense in or on electrical equipment due to the possibility of a shock hazard. Incompatible with oxidizing agents.

When food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.

VOLUMETRIC TREATMENT IN FOOD AREAS AND/OR FOOD HANDLING ESTABLISHMENTS: Do not make space spray applications when this product is in operation. Prior to space spray application, cover or remove food, and cover food processing surfaces or clean after treatment and before use. Do not apply more than 1 time per day.

VOLUMETRIC TREATMENT IN HOMES: In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.

FOR SPIDERS AND SILVERFISH: For control of these insects, frequent and repeated spraying of baseboards, windows, doorframes, bookcases and storage areas should be made. For best results, spray directly on insects.

FOR FLEAS IN BUILDINGS: Close windows and doors. Hold aerosol 36 inches above floor and direct fog toward floor and lower walls at a rate of 10 seconds per 100 square feet making sure that all floor, sofa, and chair surfaces are contacted. Remove animals before spraying. Keep room closed for 15 minutes following treatment. Open doors and windows, and thoroughly ventilate treated area before reoccupying. Repeat treatment after 7 days.

INDIANMEAL MOTHS, CHOCOLATE MOTHS, MEDITERRANEAN FLOUR MOTHS, ANGOUSMOIS GRAIN MOTHS: Close doors and windows, direct spray into all parts of room, especially around stored food product containers, pallets, and darkened areas. Do not spray in areas where food is exposed in anyway. Spray 5 to 10 seconds for each 1,000 cubic feet of space. Keep room closed for at least 15 minutes following treatment. Do not remain in treated area. Open doors and windows, and thoroughly ventilate treated area before reoccupying. Repeat application weekly or as needed. Infested stored products should be fumigated or treated by other effective methods using an approved product intended for this purpose.

Bored Adult and Larval Stages of Bedbugs, Carpet Beetles, Cigarette Beetles, Confused Flour Beetles, Drugstore Beetles, Sawtoothed Grain Beetles, Red Flour Beetles, Rice Weevils, Granary Weevils, Grain Mites: Spray into cracks and crevices, around cartons or containers and other areas where these insects tend to congregate. Spray for 30 seconds for each 100 square feet of surface. Keep area closed for 45 minutes to 1 hour after treatment. Repeat application as necessary. Infested stored food products in the home should be disposed of.

CARPET BEETLES: Spray directly on beetles, floors, baseboards, shelves and carpets. Repeat treatment as necessary.

FOR BEDBUGS: Apply to cracks, crevices, voids, and/or harborage, where evidence of bed bugs occurs, including bed frames, box springs, inside empty dressers, furniture and clothes closets, carpet edges, high and low areas of moldings, behind headboards, pictures, and wallpaper edges. Do not make surface applications to mattresses or bedding. Mattress treatments must be limited to seams and edges only. Do not treat pillows, bedding, or clothing. Remove linens and wash before reusing. Allow treated mattress to dry thoroughly before remaking bed. Remove all clothes and other articles from dressers or clothes closets before application. Allow all treated areas to dry thoroughly before use. For use with the Veriti™ Bed Bug Detector: If live bed bugs are found...
in the detector they should be removed and properly disposed of. Then
spray all pieces of the detector to kill any remaining bed bugs or
nymphs.

**HOME USE: To Kill Cockroaches, Spiders, Silverfish, Wasps, Hornets, Crickets**—Spray the insect directly when possible, and spray all probable hiding places such as cracks, crevices, baseboards, sinks, cabinets, shelves and under appliances. Repeat as necessary.

Applications in Aircraft: This product can be applied in cargo areas but not in aircraft cabins.

**FOOD PROCESSING PLANT USE: To Kill Cockroaches, Spiders, Silverfish, Wasps, Hornets, Crickets**—Spray the insect directly when possible. Spray all probable hiding places such as cracks, crevices, baseboards, sinks, cabinets, shelves, under appliances, in food storage areas. **To Kill Flies, Mosquitoes, Gnats, Small Flying Moths**—Close all windows and doors. Direct spray upward, spraying for 2-3 seconds for 1000 cubic feet of space. Keep room closed for at least 15 minutes following treatment. Do not remain in treated area. Open doors and windows, and thoroughly ventilate treated area before reoccupying.

**STORAGE & DISPOSAL**

Pesticide Storage: Do not store near heat or open flame. Keep this product in its tightly closed original container, when not in use. Store in a cool dry (preferably locked) area that is inaccessible to children and animals.

Pesticide Disposal: Do not puncture or incinerate. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.
