EPA Registration Number 72304-2-1520
ASHLAND Inc. business number 004147439

FUNGITROL® 960S FUNGICIDE is added into the paint formula during the pigment grind operation, during or after latex or, post-added to a finished paint product after manufacture. Note: IF FUNGITROL 960S FUNGICIDE is used to produce post-manufacturing additions to paint products, such products must be distributed to and used by only professional personnel engaged in the mixing or blending of paints. Such post-manufacturing products may not be added directly to homeowners or non-professional painters. If an in-can preservative is used in combination with FUNGITROL 960S FUNGICIDE, its compatibility with FUNGITROL 960S FUNGICIDE should be examined first.

DO NOT use in paints designed for applications on food-contact surfaces, or on the interior of buildings engaged in food preparation or food handling. DO NOT use in paints designed to be handled by children.

SOLVENT-BASED EXTERIOR PAINTS, STAINS AND COATINGS

FUNGITROL 960S FUNGICIDE protects solvent-based paints and stain films from mild growth on the coated surface.

Dispense 5 to 12 pounds of FUNGITROL 960S FUNGICIDE per 100 gallons of paint. Use the high rate in areas favorable to mildew and mold growth, such as where paint surfaces frequently are warm and moist. FUNGITROL 960S FUNGICIDE, when added to stains designed for exterior wood, also protects the wood from surface molds and mildew stains caused by fungi. Dispersion is readily accomplished during the pigment grinding operation.

Corrosive. Causes irreversible eye damage. DO NOT get in eyes or on clothing. Wear protective eye wear (goggles, face shield, or safety glasses); Wash thoroughly with soap and water after handling. Fungal disease. DO NOT breathe dust. DO NOT take internally.

NOTE TO USER: This product may produce temporary allergic side effects characterized by redness of the eyes, mild palpebral injection and redness or rash on exposed skin areas. Persons having allergic reactions should contact a physician.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Handle this product with care. DO NOT get in eyes or on clothing. Wear protective eye wear (goggles, face shield, or safety glasses); Wash thoroughly with soap and water after handling. Fungal disease. DO NOT breathe dust. DO NOT take internally.

NOTE TO USER: This product may produce temporary allergic side effects characterized by redness of the eyes, mild palpebral injection and redness or rash on exposed skin areas. Persons having allergic reactions should contact a physician.

KEEP OUT OF REACH OF CHILDREN

DANGER - PELIGRO

FIRST AID

If Inhaled

• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible
• Call a Poison Control Center or doctor for further treatment advice.

If Swallowed

• Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
• Call a Poison Control Center or doctor for further treatment advice.

If Skin or Clothing

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a Poison Control Center or doctor for further treatment advice.

If Eyes

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a Poison Control Center or doctor for further treatment advice.

USER SAFETY RECOMMENDATIONS

Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing.
• Remove PPE immediately after getting inside clothes.
• Remove clothing immediately if pesticide gets inside. Then thoroughly wash and put on clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge effluents containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and after it has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without a local government permitting system, notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or others. Only protected handlers may be in the area during use.

This product is used to protect treated articles from decay, mold or mildew, including paints, stains, caulks, sealants, wood, and wood compositions. This product must be sold as a milli-solvent additive designed for direct sale to retail customers, e.g. "for-each-firm" or "for-each-customer" packages.

This product may be added to only paint products that are labeled:
• As with product-specific instructions for the use of a respirator during application, or
• B) as follows: When applying with a sprayer, wear an NIOSH approved respirator with any P,R, or H filter.
• As with product-specific instructions for the use of a respirator during application, or
• B) as follows: When applying with a sprayer, wear an NIOSH approved respirator with any P,R, or H filter.

This product must not be used as an in-container preservative.

FUNGITROL 960S FUNGICIDE, a micromilled powder, is best dispersed during the pigment grinding operation for paints, stains and coatings. Grinding equipment normally used in the paint industry is recommended.

LATEX EMLAUS PIGMENTS, STAINS AND COATINGS

Dispense 5 to 10 pounds of FUNGITROL 960S FUNGICIDE per 100 gallons of exterior paint to obtain effective mildew control in the paint film after it is applied. Use the high rate in areas favorable to mold and mildew growth, such as where painted surfaces frequently are warm and moist. FUNGITROL 960S FUNGICIDE, when added to stains designed for exterior wood, also protects the wood from surface molds and mildew stains caused by fungi.

Use 5 to 5.5 pounds of FUNGITROL 960S FUNGICIDE per 100 gallons of interior latex paint. FUNGITROL 960S FUNGICIDE is compatible with zinc oxide in latex paints. FUNGITROL 960S FUNGICIDE can be added with other unmodified or alkyl modified acrylic, vinyl acrylic, or polyvinyl acetate latexes.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE STORAGE: Store in a cool place. Protect from excessive heat.

PESTICIDE DISPOSAL: Pesticide wastes are toxic; improper disposal of excess pesticide, pesticide formulation or residue is a violation of federal law. If these wastes cannot be disposed of according to local laws, contact your State Pesticide or Environmental Control Agency, or the Hazardous Wastes representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill container. Completely empty clean container into approved waste disposal facilities or, if container is combustible, by burning, stay out of smoke. If drum is contaminated and cannot be reused, dispose of in the manner required by its liner.
