FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for further treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin thoroughly with soap and water after: steady and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

CAUTION

HAZARDS TO HUMANS: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using this toilet. Remove and wash contaminated clothing before reuse. Avoid contamination of food and foodstuffs.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Pesticides may cause death if inhaled. If symptoms persist or worsen, seek medical attention immediately.

PESTICIDE STORAGE:

Store in original container in a cool, dry, well-ventilated area away from reach of children and pets and away from heat and open flame.

PESTICIDE DISPOSAL:

Disposal of Pesticides: Proper disposal of the pesticide container is important. Do not reuse or refill this container. If you have any questions about this product, please call Sergeant's Consumer Response at 1-800-224-PETS (7387) or visit our website at sergeantspetcare.com.

SNAKE WELL BEFORE USE

FOR USE ON CATS AND KITTENS OVER 12 WEEKS OF AGE TO KILL FLEAS AND TICKS: Hit the container upright. Spray at a distance of 6 to 12 inches. Spray over entire backside making sure the coat is thoroughly wetted to the skin. As you spray, roll the hair so the spray will penetrate to the skin. Make sure spray went in thoroughly. Spray against the lay of the hair, rubbing the hair on long-haired cats. Weight of cat, length of hair and density of coat will determine amount of spray to be applied to wet the skin. This 8 oz. bottle should be sufficient for 10 applications to a 10 lb. cat. Do not spray into eyes, face or genitalia. When applied at the label dose rate, the cat should not be retreated more frequently than once every 14 days. Lighter applications will reduce period of effectiveness, may result in earlier reinfestation and may require more frequent retreatment. For best results in controlling ticks, spray directly on the tick. Allow cat to air dry or blow dry. Do not towel dry. This product is formulated to leave the hair coat soft and manageable for grooming. Do not molt more often than once every 14 days.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in original container in a cool, dry place inaccessible to children and pets and away from heat and open flame.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. If Empty: Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
