HTH Winterizing Pool Closing Shock
- Destroys organic contaminants

HTH Winterizing Algae Control
- Protects against algae growth

HTH Winterizing Stain & Scale Control
- Controls metals in the water

PRECAUTIONARY STATEMENTS:
CAUTION: Contains tetrasodium etidronate. May be injurious to eyes, skin, and mucous membranes. Avoid contact with eyes, skin and clothing. Wear safety glasses or goggles and rubber gloves when handling this product. Do not swallow. Avoid breathing dust. Wash hands thoroughly after handling. Do not mix with other chemicals.

DANGER
Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign material, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not mix this product with a small amount of water. Only add directly to your pool. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled, or absorbed through the skin. Read all precautionary statements and label and all first aid and statements before use.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. IF NAILED: Remove person to fresh air. If person is not breathing, call 911 or an operator and then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Possible mucosal damage may contraindicate the use of gastric lavage.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT: This is a highly effective, multipurpose product that sanitizes, prevents algae and shock treats your pool. It is convenient to use and won’t overstabilize your pool. For clear and clear pool water, the makers of HTH® recommend the following 4-step pool care program:

Step 1: Test and Balance Water
Step 2: Sanitize
Step 3: Shock at least once a week
Step 4: Alginex as directed

Additional shock to keep water clean and clear is recommended after: rain and heavy winds, high number of swimmers, increased water temperature, and/or increased frequency of pool use.

HOW TO USE: Do not mix this product directly before adding it to your pool. Only add this product directly to your pool or skimmer. Use only a clean, dry, low to measure this product. Do not use the lid for any other purpose.

Method for dosing directly into pool: Add the recommended dosage of this product during evening hours to maintain the filter pumps running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse.

Method for skimmer addition: Make sure that filter pump is on and properly recirculating through skimmer. Empty skimmer of all chemicals and/or debris. Contamination may cause an explosion or the release of toxic gases. Do not use this method when an automatic chemical dispenser device (e.g., Feeder) is present. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate: do not allow this material to accumulate as toxic gases may be generated.

WATER BALANCE: For best product performance, swimmer comfort and crystal clear water, use HTH® pool care products to maintain the following water balance:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Acceptable Range for Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td>pH</td>
<td>7.2–7.8</td>
</tr>
<tr>
<td>Total Alkalinity</td>
<td>80–120 ppm</td>
</tr>
<tr>
<td>Calcium Hardness</td>
<td>Above 200 ppm</td>
</tr>
<tr>
<td>Available Chlorine</td>
<td>1–4 ppm</td>
</tr>
</tbody>
</table>

Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Use a reliable test kit that measures all these ranges.

Re-entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury.

OPENING YOUR POOL: For best results, see the “WATER BALANCE” section above before treatment. Adjust and maintain pH to 7.2 to 7.8 range. Allow the pH adjuster to dissolve and disperse before adding this product to the pool. Follow “POOL SHOCK TREATMENT” directions on this package. 2. Allow 30 minutes for product to disperse. 3. Test free available chlorine residual with a pool test kit. 4. Repeat dosage, as needed, until the free available chlorine residual is 1–4 ppm. Re-entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury.

As a preventative treatment, you should shock treat your pool once a week to prevent pool problems which occur when bather loads are high, water appears hazy or dull, unpalatable odors or eye irritation occur, after heavy wind and rainstorms, or if algae develops with resulting green color and algae looking fluids.

POOL SHOCK TREATMENT: Add the recommended dosages of this product while the filter pump is running. Adjust and maintain pH to 7.2 to 7.8 with HTH® pH Plus or HTH® pH Minus. Follow label directions. Allow the pH adjuster to dissolve and disperse before adding this product to the pool. When adding this product to your pool, broadcast this product evenly over a wide area of the deepest part of the pool.

CAGE RATE: SHOCK TREATMENT/SUPER CHLORINATION: For best results, see “WATER BALANCE” and “HOW TO USE” section above before treatment. Every 7 days or as necessary to prevent pool problems, shock treat/super chlorinate the pool by adding 14–28 ounces of this product per 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Re-entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury.

WINTERIZING: For best results, see “WATER BALANCE” section above before treatment. While the water is still clear and clean, prepare for long periods of disuse by gradually adding 42 ounces of this product per 10,000 gallons of water that is clear and clean. This provides 15 ppm free available chlorine. Follow “HOW TO USE” directions on this package. Run the filter pump until granules are completely dissolved. Cover the pool with a pool cover. Prepare the heater, pump and filter components for winterizing by following manufacturer’s directions.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled, or absorbed through the skin.

PHYSICAL AND CHEMICAL HAZARDS: Danger, if product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

Do not mix this product with a small amount of water. Only add this product directly to your pool. Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. Keep all foreign matter, including other water treatment products, away from this product. Use only clean dry clothes to dispense this product. Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer. Avoid spilling this product. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases. Store in a cool, dry, well-ventilated area away from heat or open flame.

HOTelda agent. This product can increase fire intensity. Keep away from heat and from flame and burning material (like a lighted cigarette).

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not re-use or refill this container. Rinse and discard empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. For disposal of a contaminated or decomposing product see "EMERGENCY HANDLING".

EMERGENCY HANDLING: In case of contamination or decomposibility—Do not re-use container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water until the material is dissolved. Dispose of container and any remaining material in an approved waste area.

DANGER

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. Give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor if swallowed. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-854-6911. For emergency information on this product you may also call the National Pesticide Information Center at 1-800-858-7378, 8:30 AM to 4:30 PM Pacific time (PT), seven days a week.

During other times, call the poison control center: 1-800-222-1223

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
Corrosive. Causes irreversible eye damage. Harmful if swallowed or inhaled. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing dust or spray mist. Wear protective goggles. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
Avoid contact with strong oxidizers.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container.

Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Non-refillable container.

Do not reuse or refill this container. Rinse and discard empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WAY YOU SHOULD USE THIS PRODUCT:
This product will prevent the growth of algae for complete pool enjoyment. HTH Winterizing Algae Control is a key component of the HTH System. It is convenient and easy to use. For best results, use with other HTH pool care products. For crystal clear pool water follow our HTH System.

How to apply:
Add product either directly to pool or through the skimmer while pump is in operation according to the dosage tables below.

Pool Closing
Add a Pool Closing dose of this product according to the table below.

Follow recommended HTH pool closing procedure.
