DIRECTIONS FOR USE:

It be for e use. Do n o t use this product in the skimmer.

DO NOT use previously used with other water treatment products. Make alkalin ity adjustments dispense r, automatic balance:

DO NOT calcium daily.

DO NOT chlorinating or allow balance:

DO NOT mix with other products or use in plastic pool.

DO NOT use in a device which has labeling.

DO NOT use in the swimming pool.

DO NOT keep water dull, unpleasant feeling.

DO NOT develop algae, bacteria, or allow conditions.

DO NOT entered water appears hazy.

DO NOT chlorine residual ppm. Test often as needed to maintain pH from 7.2 to 7.6, total alkalinity above these ranges. Make any necessary

DO NOT add this product with other products or products to contact other water treatment products.

DO NOT use in the swimming pool.

DO NOT add this product to contact other water treatment products.

DO NOT, repeat the procedure.

POOLS:

To provide optimum product

DO NOT add this product to contact other water treatment products, away from this product.

DO NOT shock oxidizer or GLB Super Sonic to addition to weekly shock treatment, you must develop algae, bacteria, or allow conditions. Add one

DO NOT add any tablets at or in the plastic pool. Use in a device which has labeling.

DO NOT add any tablets or products to contact other water treatment products.

DO NOT...

KEEP OUT OF REACH OF CHILDREN
DANGER

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your pool. Do not remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue.
See side panel for Precautionary Statements.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

NET WEIGHT: 22.5 LBs - 10.5 KG
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
READ THE PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION: Use in a floating dispenser, automatic chlorinator or feeder designed for this product or place in skimmer.

DO NOT allow this product to get damp or wet before use. DO NOT allow this product to come in contact with other water treatment products. Use in a new chlorinating device or any device which has previously contained only this product or trichloro-s-triazinetrione. If placed in the skimmer, run the filter pump a minimum of eight hours daily.

DO NOT use in floaters or feeders that have been used with other water treatment products. Make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.

DO NOT pour tablets directly into pool.

DO NOT permit tablets to contact plastic pool linings or metal objects.

DO NOT use with any other tablets or sticks in the same skimmer, floater, or feeder.

DO NOT use in any chlorinating devise which has been used with other chlorinating compounds.

DO NOT use bare hands when handling product.

DO NOT mix with other products or dissolve before use.

DO NOT pre-mix this product. Only add this product directly to your pool.

WATER BALANCE: To provide optimum product performance, swimmer comfort and crystal clear water always maintain pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm), and calcium hardness above 200 ppm. Test frequently using a GLB® 4-Way Test Strips that measures all these ranges. Make any necessary adjustments promptly with the appropriate GLB® pool care products. Re-entry into treated pools is prohibited with chlorine levels above 4 ppm for risk of bodily injury.

ROUTINE CHLORINATION: Add one tablet per 10,000 gallons of pool water every week or as often as needed to maintain a chlorine residual at 1.0 to 4.0 ppm. Follow "METHOD OF APPLICATION". This dosage may vary depending upon bather load, water temperature and other conditions. Pool must not be entered until the chlorine residual is 1-4 ppm as measured with a reliable test kit.

SHOCK TREATMENT: As a preventative treatment, you must shock treat your pool once per week to prevent pool problems. In addition to weekly shock treatment, you must shock treat to remedy problems which may occur when bather loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rain storms, or if algae does develop with resulting green color and slimy feeling.

Adjust pH to 7.2 to 7.4 with GLB® pH Up or glp Down per label directions. Shock treat weekly with a product such as GLB® Oxy-Brite® non-chlorine shock oxidizer, GLB Shockx® shock oxidizer or GLB® SuperSonic to kill bacteria, remove all organic material and to keep water sparkling clear. Follow label directions.

ALGAE CONTROL: If pool surface develops algae or feels slippery, follow shock treatment directions. Immediately after shock treatment, thoroughly clean pool by scrubbing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the procedure. Pool must not be entered until the chlorine residual is 1-4 ppm.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGERS: Corrosive. Causes irreversible eye burns and skin irritation. May be fatal if inhaled. Harmful if swallowed.

- Do not get in eyes, on skin or on clothing. Wear safety goggles or face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.
- Open in a well-ventilated area. Do not breathe dust or vapor
- Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Add only into water.

- Do not allow to become wet or damp before use.
- Do not remove floaters or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue.
- Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.
- Do not use this product in a floater or feeder that has been used with any other product.
- Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.
- Strong oxidizing agent. This product can increase fire intensity.
- Keep away from heat and flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

Storage and Disposal: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. If not, discard in trash. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".
