Contains aromatic petroleum distillates
and pyridine derivatives.
**ACT with Slime Fighter**

**PRODUCT DESCRIPTION:** ACT with Slime Fighter uses Activated Technology to provide excellent season-after-season protection. Activated Technology ensures it is made with organic and biodegradable ingredients that eliminate and neutralize the build-up of oil and organic materials and the heavy debris needed to remove them. ACT with Slime Fighter is very effective at controlling sludge buildup, such as barnacles and zebra mussels and contains a slime fighter to control weed, algae and algae growth which helps keep the bottom cleaner longer. It provides excellent protection against all forms of marine life, including, but not limited to, barnacles, mussels, and encrusting organisms. Contains a powerful cleaning agent and a cleaning base that removes such elements as oil and dirt, leaving a clean, healthy, and functional environment.

**APPLICATION:** It is a solution of Federal law to use this product in a manner consistent with its labeling.

**VISCOSITY:** Less than 400 centipoise (3-3.4 lb/446,300) at 77°F (25°C).

**THEORETICAL COVERAGE:** 100 sq. ft./gal. 200 sq. ft./gal.

**DRIFF TIME:** Dry to touch - 1 hour

**APPLICATION TEMPERATURE:** 50°F (10°C)

---

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

- Corrosive if absorbed through skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wear protective clothing such as chemical-resistant gloves, long-sleeved shirts, pants, and hats. Wear eye protection (safety glasses, safety goggles, or face shield) and breathing spray mask. Avoid dusting or spraying large quantities.

- Use it in a well-ventilated area. Avoid contact with food and water sources. Apply in a manner consistent with its labeling.

**FIRST AID**

- If swallowed: Call 911 or a doctor. Do not induce vomiting unless instructed by a doctor.
- If in the eye: Remove contact lenses, if present, then rinse for at least 15 minutes, then refer to a doctor.
- If on clothing: Remove clothing with warm water, then rinse.

**PREVENTION**

- Do not apply to areas that are already treated.
- Do not apply to areas that are already treated.
- Do not apply to areas that are already treated.

**STORAGE AND DISPOSAL**

- Do not contaminate water, food, or feed storage areas with this product. Apply it only as directed.
- Do not apply to areas that are already treated.

**PREPARATION**

**PREVIOUSLY PAINTED - GOOD CONDITION:**

- Remove all traces of loose paint, rust, and corrosion by sanding the entire surface with 80-grit sandpaper; wipe surface clean with Special Thinner 216.

**PREVIOUSLY PAINTED - POOR CONDITION:**

- Remove rust, scale, and other contaminants by sanding the entire surface with 80-grit sandpaper; wipe surface clean with Special Thinner 216.

**BARE FIBERGLASS (POLYESTER OR VINYL ESTER):**

**SURFACE PREPARATION:** It is very important that bare fiberglass be properly cleaned to prevent delamination of the adjoining paint. Before applying the surface, thoroughly brush off any dirt and debris using a paint brush. Clean the surface with a paint brush, then rinse it with water to remove loose dirt and debris. Clean the surface with a paint brush, then rinse it with water to remove loose dirt and debris. Clean the surface with a paint brush, then rinse it with water to remove loose dirt and debris.

**APPLICATION:**

**BASE FIBERGLASS - NO SANDING SYSTEM:**

- Clean the surface following the procedure above.
- Apply the first coat of 80-grit sandpaper, then wipe the surface clean with Special Thinner 216, and apply the second coat of ACT with Slime Fighter following dry times above.

**BASE FIBERGLASS - SANDING SYSTEM:**

- Clean the surface following the procedure above.
- Apply the first coat of 80-grit sandpaper, then wipe the surface clean with Special Thinner 216, and apply the second coat of ACT with Slime Fighter following dry times above.

**UNDERWATER METAL:**

Contact the Interlux Technical Service Department at 1-800-489-7365 for full information on how to properly paint underwater metal. Do not USE ALUMINUM.
