FIBERGLASS BOTTOMKOTE NT

PRODUCT DESCRIPTION: Fiberglass Bottomkote NT uses a dual resin technology that provides a universal basecoat fast dry, sanding, dilating paint that delivers the benefits of both hard and polishing sanding paints for use on all power and sailboats. The universal formula of Fiberglass Bottomkote NT has durability of a traditional hard paint but has a slow polishing mechanism built-in that continuously smooths and repairs the active surface without the heavy build-up of paint layers much like a polishing paint. The fast dry formula allows the boat to be painted and launched in the same day. Fiberglass Bottomkote NT provides clear stable colors for effective self-finishing protection. Fiberglass Bottomkote NT is recommended for use on the underwater areas of fiberglass, wood, and properly primed metal (except aluminum) boat hulls. It can be used in fresh, salt and brackish waters.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

COMPATIBILITY: Fiberglass Bottomkote NT can be applied over most other bottomkote paints provided the old coating is thoroughly cleaned and the coating surface has been thoroughly sanded with 60 grit wet-or-dry sandpaper. Fiberglass Bottomkote NT can be applied by brush, roller, or spray.

V.O.C.: Less than 405 grams/liter

S.I. B:i.. Theoretical Coverage: 80 sq. ft. / gallon

BRUSH THINNER: Interlux Special Thinner 216 or Interlux Brush Ease 430.

CLEAN-UP: Special Thinner 216 or Brush Ease 430.

*If the air temperature falls below 50°F (10°C) during the dry time extend the dry times by 12 hours maximum.

PREVIOUSLY PAINTED SURFACES - GOOD CONDITION:
Remove all traces of loose paint and contamination by sanding the entire surface with 60 grit wet-or-dry sandpaper; wipe surface clean with Special Thinner 216. Apply at least 2 coats of Fiberglass Bottomkote NT. PREVIOUSLY PAINTED SURFACES - POOR CONDITION:
Complete remove all old antifouling paint, use Interlux Interstrip 2985 for fiberglass and wood, and by sandblasting or grinding to expose the metal. Follow application systems below.

BARE FIBERGLASS:
It is very important that bare fiberglass be properly prepared to prevent contamination of the antifouling paint. Remove paint and surface contamination by using one of the following Interlux products: Fiberglass Surf Prep YAMIR or Fiberglass Sovent WAX 202 following the label instructions. Fill any surface imperfections with Interlux Waterline WAX-25 following the label instructions. After the surface has been properly cleaned, proceed with one of the application systems below.

APPLICATION SYSTEMS

BARE FIBERGLASS - NO SAND SYSTEM:
Clean the surface following the preparation procedure above. Apply one coat of Interlux InterPaint® 2000 or Interlux InterWax with InterPaint® 4770 following the label instructions for applying the primer and overcoating with antifouling paint. Apply two coats of Fiberglass Bottomkote NT, allowing for the appropriate dry times.

BARE FIBERGLASS - SANDING SYSTEM:
Clean the surface following the preparation procedure above for bare fiberglass. Sand the entire surface with 60-grit sandpaper until a flat, metal finish is obtained. Wipe the sanding residue off the surface with Fiberglass Sovent WAX 202. Sand and wipe clean. Apply two coats of Fiberglass Bottomkote NT allowing for the appropriate dry times.

BARE FIBERGLASS - BLISTER PREVENTION SYSTEM:
Apply the InterProject system for the prevention of blisters. Contact the Interlux Technical Service Department at 1-800-186-7540 or visiting yachtpaint.com for complete instructions on the application of the InterProject system.

BARE WOOD:
Sand the entire surface with 60-grit sandpaper. Wipe the sanding residue off the surface with Special Thinner 216. Apply the first coat of Fiberglass Bottomkote NT thinned 10% with Special Thinner 216 or Brush Ease 430. Fill seams with Interlux Seam Compound 20 if necessary. Apply two more coats of Fiberglass Bottomkote NT allowing for the appropriate dry times.

UNDERWATER METALS:
Contact the Interlux Technical Service Department at 1-800-483-7450 for full information on how to properly prime underwater metals or steel hulls. More systems and information available on www.yachtpaint.com.

DO NOT USE ON ALUMINUM.

Color difference may occur between actual paint and color swatch on front of can.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash protective clothing such as gloves, long-sleeved clothing, and pants. May be fatal if swallowed or inhaled. Do not breathe dust, vapor or spray mist. While spraying paint or sanding or sand blasting boat surfaces, wear a mask or a respirator approved by the Mine Safety and Health Administration of the United States and by the National Institute of Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID

If Swallowed:
- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor or for treatment advice.

If Inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor or for further treatment advice.

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor or for treatment advice.

Other: Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Note to Physicians: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS

This material is toxic to fish. Do not apply directly to water by draining of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge cleaning containing this product into lakes, streams, ponds, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge to sewer systems without notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Flammable. Keep away from heat and open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray containers, and excess pesticide packaging is a violation of Federal Law. If these products are no longer needed and the waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into the application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL FREE: CHEMTREC 1-800-424-9300 (DAY OR NIGHT) MEDICAL ADVISORY: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-521-6266.
