FIBERGLASS BOTTOMKOTE® NT

PRODUCT DESCRIPTION: Fiberglass Bottomkote® NT uses a dustless technology that provides a universal durable, fast drying antifouling paint that offers the benefits of both hard and polishing antifouling paints for use on all power and sailboats. The universal formula of Fiberglass Bottomkote® NT has durability of a traditional hard paint but has a slow polishing mechanism built-in that continuously smooths and renews the active surface coating the heavy build-up of paint layers much like a polishing paint. The fast dry formula allows the boat to be painted and launched in the same day. Fiberglass Bottomkote® NT provides clear stable colors for effective season-long protection. Fiberglass Bottomkote® NT is recommended for use on the underwater areas of fiberglass, wood, and properly primed metal (except aluminum) boat hulls. It can be used in fresh, salt, and brackish waters.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. COMPATIBILITY: Fiberglass Bottomkote® NT can be applied over most other antifouling paints provided the old coating is tightly adhered, is in sound condition and has been thoroughly sanded with 80 grit wet-or-dry sandpaper. Fiberglass Bottomkote® NT can be applied by brush, roller, or spray. THEORETICAL COVERAGE: 400 sq. ft. per gallon. V.O.C.: Less than 480 grams/liter. (3.3 lbs./gallon)

THINNER: Interlux Special Thinner 216 or Interlux Brush Ease 433.

CLEAN-UP: Special Thinner 216 or Brush-Ease 433.

APPLICATION TEMPERATURE: 50°F (10°C) and above (air and hull).

*If the air temperature falls below 50°F (10°C) during the dry time extend the dry times by 12 hours minimum.

PREVIOUSLY PAINTED SURFACES - GOOD CONDITION:

Remove all traces of loose paint and contamination by sanding the entire surface with 80 grit wet or-dry sandpaper, wipe the surface clean with Special Thinner 216. Apply at least 2 coats of Fiberglass Bottomkote® NT. PREVIOUSLY PAINTED SURFACES - POOR CONDITION:

Completely remove any old antifouling paint, using Interlux Interstrip 299 or fiberglass, wood, and by sandblasting or grinding to bare metal for steel. Follow application systems below.

BARE FIBERGLASS:

It is very important that bare fiberglass be properly prepared to prevent deterioration of the antifouling paint. Remove mold release wax and surface contamination by using one of the following Interlux products: Fiberglass Surface Prep YM601 or Fiberglass Surface Wash 202 following the product label instructions. Fill any surface imperfections with Interlux Watertite YW155 following the label instructions. After the surface has been properly cleaned, proceed with one of the application systems below.

APPLICATION SYSTEMS

BARE FIBERGLASS - NO SAND SYSTEM:

Clean the surface following the preparation procedure above. Use one coat of Interlux Interprotect 3200 or Interlux No-Sand Primer 9200 following the label instructions for applying the primer and overcoating with antifouling paint. Apply two coats of Fiberglass Bottomkote® NT, allowing for the appropriate dry times.

BARE FIBERGLASS - SANDING SYSTEM:

Clean the surface following the preparation procedure above for bare fiberglass. Sand the entire surface with 80 grit sandpaper until a flat matte finish is obtained. Wipe the sanding residue off the surface with Fiberglass Solvent Wash 202. Sand and wipe clean. Apply two coats of Fiberglass Bottomkote® NT allowing for the appropriate dry times.

BARE FIBERGLASS - BLISTER PREVENTION SYSTEM:

Apply the InterProtect system for the prevention of blisters. Contact the Interlux Technical Service Department at 1-800-458-7689 or visiting yachtpaint.com for complete instructions on the application of the InterProtect system.

BARE WOOD:

Sand the entire surface with 80 grit sandpaper. Wipe the sanding residue off the surface with Special Thinner 216. Apply the first coat of Fiberglass Bottomkote® NT thinned 10% with Special Thinner 216 or Brush-Ease 433. Fill seams with Interlux Seam Compound 38 (if necessary). Apply two more coats of Fiberglass Bottomkote® NT thinned, allowing for the appropriate dry times.

UNDERWATER METALS:

Contact the Interlux Technical Service Department at 1-800-458-7689 for full information on how to properly prime underwater metal or steel hulls. More systems and information are available on yachtpaint.com. DO NOT USE ON ALUMINUM.

Color difference may occur between actual paint and color swatch on front of can.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants, and hat. May be fatal if swallowed or inhaled. Do not breathe vapor or dust. parachoses, emphysema, asthma, irritation of the nose or lungs, and cancer. Inhaling the vapor can cause lung damage. Keep out of reach of children. In case of contact with eyes, rinse immediately with plenty of water. In case of accidental exposure or inhalation, seek medical attention immediately.

FIRST AID

If swallowed:

• Immediately call a poison control center or doctor.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give any liquid to the person.
• Do not give anything by mouth to an unconscious person.

If on skin or clothing:

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

If inhaled:

• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

If in eyes:

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

Note to Physician: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS

This material is toxic to fish. Do not apply directly to water by choking of equipment or disposal of wastes. Do not apply directly to water by choking of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Flammable. Keep away from heat and open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is in violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

For CHEMICAL EMERGENCY SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL-FREE CHEMICAL TOLL-FREE CHEMICAL 1-800-424-9350 (DAY OR NIGHT) MEDICAL ADVICE: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-661-6000.
