FIBERGLASS BOTTOMKOTE® NT

PRODUCT DESCRIPTION: Fiberglass Bottomkote NT uses a dual resin technology that provides a universal durable, fast dry antifouling paint that delivers the benefits of both hard and soft antifouling paints for use on all power and sailboats. The universal formula of Fiberglass Bottomkote NT has durability of a traditional hard paint but has a slow polishing mechanism built-in that continuously smooths and removes the active surface avoiding the luxury belt-up of paint layers much like a polishing paint. The fast dry formula allows the next to be painted and launched in the same day. Fiberglass Bottomkote NT provides clean static colors for effective season-long protection. Fiberglass Bottomkote NT is recommended for use on the underwater areas of fiberglass, wood, and properly primed metal (except aluminum) boat hulls. It can be used on fresh, salt, and brackish waters.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

COMPATIBILITY: Fiberglass Bottomkote NT can be applied over most antifouling paints provided the antifouling paint is thoroughly sanded with 80 grit wet or dry sandpaper. Fiberglass Bottomkote NT can be applied by brush, roller, or spray.

V.G.L.: Less than 345 grams per liter

TYPICAL COVERAGE: 400 sq. ft./gallon

YIELDS: 2.5 sq. ft./min. dry film thickness

APPLICATION TEMP: 50°F (10°C)

PREPARATION

PREVIOUSLY PAINTED SURFACES - GOOD CONDITION: Remove all traces of loose paint and contamination by sanding the entire surface with 80 grit wet or dry sandpaper, wipe surface clean with Special Thinner. Apply at least 2 coats of Fiberglass Bottomkote NT.

PREVIOUSLY PAINTED SURFACES - POOR CONDITION: Completely remove all antifouling paint, using Interlux Interstrip 390s for fiberglass, and wood, and by sandblasting or grinding to raw metal for steel. Follow application systems below.

BARE FIBERGLASS:

It is very important that bare fiberglass be properly prepared to prevent contamination of the antifouling paint. Remove mold release wax and surface contamination by using one of the following Interlux products: Fiberglass Surface Prep WA601 or Fiberglass Sailcoat Wash 502 following the product instructions. Fill all surface imperfections with Interlux Watertite YA135 following the label instructions. After the surface has been properly cleaned, proceed with one of the application systems below.

APPLICATION SYSTEMS

BARE FIBERGLASS - NO SAND SYSTEM:

Bare Fiberglass - No Sand System:

Clean the surface following the preparation procedure below. Apply two coats, of Interlux Interprotect® 2000 or Fiberglass No-Sand Primer WA200 following the label instructions for the primer and over coating with antifouling paint. Apply two coats of Fiberglass Bottomkote NT, allowing for the appropriate dry times.

BARE FIBERGLASS - SANDING SYSTEM:

Clean the surface following the preparation procedure above for bare fiberglass. Sand the entire surface with 80-grit sandpaper until a flat matte finish is obtained. Wipe the sanding residue off the surface with Fiberglass Sailcoat Wash 502. Sand and wipe clean. Apply two coats of Fiberglass Bottomkote NT allowing for the appropriate dry times.

BARE FIBERGLASS - BLISTER PREVENTION SYSTEM:

Apply the InterProtect system for the prevention of blisters. Contact the Interlux Technical Service Department at 1-800-468-7589 or visiting yachtpaint.com for complete instructions on the application of the InterProtect system.

BARWARE:

Sand the entire surface with 80-grit sandpaper. Wipe the sanding residue off the surface with Special Thinner 216. Apply the first coat of Fiberglass Bottomkote NT thinned 10% with Special Thinner 216 or Brush-Ease 433. Fill all seams with Interlux Seam Compound 30 (if necessary). Apply two more coats of Fiberglass Bottomkote NT, allowing for the appropriate dry times.

UNDERWATER METALS:

Contact the Interlux Technical Service Department at 1-800-468-7589 for full information on how to properly prime underwater metal or steel hulls. More systems and information available on www.yachtpaint.com, DO NOT USE ON ALUMINUM.

Color difference may occur between actual paint and color swatch on front of can.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants, and hat. May be fatal if swallowed or inhaled. Do not breathe dust, vapor or spray mist. While spraying paint or sanding or sand blasting boat surfaces, wear a mask or a respirator jointly approved by the Mine Safety and Health Administration (MSHA) and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID

If Swallowed:

- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

If on Skin or Clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If Inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

OTHER: Have this product container or label with you when calling a poison control center or doctor or going for treatment.

Note to Physician: Contains petroleum distillate - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS

This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Flammable. Keep away from heat and open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. PESTICIDE DISPOSAL: Pesticide wastes are corrosively hazardous, improper disposal of excess pesticide, spray mixtures, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representatives at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-returnable containers. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse in a later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL FREE: CHEMREC 1-800-424-3000 (DAY OR NIGHT) MEDICAL ADVISORY: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-222-1222.
