Crawling Insect Killer Containing Diatomaceous Earth

Kills Listed Insects By Contact

- Kills Cockroaches, Ants, Silverfish, Beetles & other crawling insects as listed
- For Use Indoors & Outdoors

Precautionary Statements

CAUTION: Use in accordance with label instructions. Store in a dry, cool place out of the reach of children. Avoid breathing dust. Wash your hands before eating, drinking, chewing gum, using tobacco, or handling food. (Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or handling food.)

Directions for Use

Where To Use

- Lightly coat a thin layer of Garden Safe Brand Crawling Insect Killer Containing Diatomaceous Earth and beneath refrigerators, cabinets, stoves and garbage cans; and in and around sewer pipes and drains.
- Thoroughly treat floor and bedding in and around pet sleeping quarters. Treat areas where pets sleep, along pet beds and under pet bedding; and along pet food bowls and water dishes.
- Treat the floor and surrounding areas around pet sleeping quarters (e.g., the floor, walls, doors, windows, and pet furniture).
- Treat the area directly under the pet bed and around the pet's ukcle.
- Treat the floor of the pet's sleeping area (e.g., the floor, walls, doors, windows, and pet furniture).
- Treat the area directly under the pet bed and around the pet's ukcle.
- Treat the floor of the pet's sleeping area (e.g., the floor, walls, doors, windows, and pet furniture).
- Treat the area directly under the pet bed and around the pet's ukcle.
- Treat the floor of the pet's sleeping area (e.g., the floor, walls, doors, windows, and pet furniture).
- Treat the area directly under the pet bed and around the pet's ukcle.
- Treat the floor of the pet's sleeping area (e.g., the floor, walls, doors, windows, and pet furniture).
- Treat the area directly under the pet bed and around the pet's ukcle.
- Treat the floor of the pet's sleeping area (e.g., the floor, walls, doors, windows, and pet furniture).
- Treat the area directly under the pet bed and around the pet's ukcle.
- Treat the floor of the pet's sleeping area (e.g., the floor, walls, doors, windows, and pet furniture).
- Treat the area directly under the pet bed and around the pet's ukcle.
- Treat the floor of the pet's sleeping area (e.g., the floor, walls, doors, windows, and pet furniture).

Disassemble the bed frame and remove bedding. Do not apply product to stuffed animals or toys. Use a low setting on a vacuum to remove dust from pet bedding and pet furniture. Apply to pet's sleeping area, inside the pet's playpen, under pet beds, and along pet food bowls and water dishes.

Storage and Disposal

- KEEP OUT OF REACH OF CHILDREN.
- CAUTION: This product may contain Diatomaceous Earth (diatomaceous earth) which is aspirated into the lungs when not properly used. Use with ventilation and protective gear. Avoid breathing dust. Wash your hands after each use, before eating, drinking, chewing gum, using tobacco or handling food. Wash your hands before eating, drinking, chewing gum, using tobacco or handling food.

Environmental Protection:

- To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not expected for at least 24 hours is recommended to minimize run-off. Discourage other people from walking, playing or playing in the treated area for at least eight (8) hours after application. Do not allow the treated area to be used for swimming until the area is thoroughly dry. Blow dust off of foliage, picture frames, sand, lawns, driveways and sidewalks. Apply product in calm weather when rain is not expected for at least 24 hours.

Notice:

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

Call 1-800-257-3379 or visit our website at www.gardensafe.com for more information on directions and precautions.

For Use Indoors & Outdoors

- Controls a wide variety of insects: Ants, Silverfish, Beetles & other crawling insects as listed

Other Ingredients

- 15% Other Insecticides

How To Apply
A thin, even layer of Diatomaceous Earth is required to control crawling insects. Apply a light coating with a dusting device, powder duster, or air duster to cracks, crevices, and other areas where pests are likely to hide. Be sure to treat all areas thoroughly.

Storage and Disposal
Store in a cool, dry area. For disposal, follow the instructions on the label. If a spill occurs, dispose of it in accordance with local regulations.

Precautionary Statements
Read the entire label before use. This product is for outdoor use only and should not be used in or around water bodies or natural features. Keep out of reach of children and pets.

Storage:
Store in a cool, dry area.

Disposal:
If empty, clean container thoroughly with water. Do not use this product in a manner inconsistent with its labeling.

FIRST AID
If in Eyes:
Wash eyes thoroughly with water for at least 15 minutes. If irritation persists, seek medical treatment.

If in Mouth:
Do not induce vomiting. Rinse mouth with water.

If on Skin:
Wash skin thoroughly with soap and water.

If Swallowed:
Do not induce vomiting. Call a Poison Control Center or doctor for treatment advice.

Risks to Humans and Domestic Animals
Risks to humans and domestic animals include irritation and respiratory effects. Avoid exposure to dust.

Preparation of the Treatment Area
Remove and discard any clutter that may hide insects. Remove any debris, such as dead leaves or straw, from the area. Vacuum or sweep the area before applying the Diatomaceous Earth.

Application
Apply a light, even coating with a duster, powder duster, or air duster. Cover all areas where pests are likely to hide, such as cracks and crevices. Be sure to treat all areas thoroughly.
