DANGER
Contact with decomposer may cause eye, skin irritation or respiratory or eye irritation. Do not allow product to contact any foreign matter, including water treatment products. If product is exposed to material of unknown origin, it must be mixed under proper conditions. If any product is spilled, do not mix with water. Do not mix any product with a small amount of water. Only use as directed.

FIRST AID:
- IF IN EYES: Hold open eye and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present. After the first 5 minutes, refer to physician.
- IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison center or doctor for treatment advice.
- IF SWALLOWED: Call a poison center or doctor immediately for treatment advice. Have person drink a glass of water. Do not induce vomiting. Do not induce vomiting unless advised by physician.

IN CASE OF EMERGENCY CALL: 1-800-454-4011

Have product and label with you when calling a poison center or doctor or going for treatment.

To physician: Broad-spectrum antibiotics may increase the risk of nausea or vomiting.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION: Do not mix this product directly into the pool. Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the drop of pool. If any granules settle to the bottom of the pool, use brush to disperse.

METHOD OF ADDITION: Use this method to avoid touching vinyl liner or paint. Make sure that filter pump is on and properly recirculating through skimmer, before adding the product to the pool. Use a hose to sprinkle the water as directed in the label.

METHOD OF ADDITION: Use this method to avoid touching vinyl liner or paint. Make sure that filter pump is on and properly recirculating through skimmer, before adding the product to the pool. Use a hose to sprinkle the water as directed in the label.

WATER BALANCE: For best product performance, maintain the pH in the following water ranges. For best results, use a balance test kit that measures all these ranges.

HTH Green to Blue System: pH 7.0-7.6 Available Chlorine: 25-35 ppm

- Add 10 lbs of this product per 1,000 gallons of pool water. Do not add more than one bag of this product per day. Use brush to disperse to avoid settling of the product.

- For best results, use a balance test kit that measures all these ranges.

- pH 7.0-7.6 Available Chlorine: 25-35 ppm

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Irreparable eye damage and skin burns. May be fatal if swallowed. Harmful absorbed through the skin, breath and eyes.

- Do not get in eyes, on skin, or on clothing. Wear rubber gloves and N95 respirator when handling this product.

- For additional skin protection, wear long sleeves and long pants.

- Wash thoroughly with soap and water after handling and before eating, drinking, smoking, using tobacco, or using the toilet.

- Open in a well-ventilated area. Do not breathe dust or fumes.

- Remove and wash contaminated clothing before reuse.

EMERGENCY HANDLING: In case of contamination or decomposition of decomposition container. Place the container in a well-ventilated area outside of it, and free of technicians. Do not reuse the HTH container. Rinse and discard any container thoroughly with water to dispose of all material containers. Other than skin protection, decontamination is not necessary. Shave or clip your hair or face to remove any dust or debris, and decontamination using soap and water. For disposal of a contaminated or decomposition container or equipment, see disposal of a contaminated or decomposition container or equipment Idle.

STORAGE & DISPOSAL:
- Keep the product dry in its tightly closed container. Store in a cool, dry, ventilated area.
- Keep away from children and pets. Harmful if swallowed. Non-flammable.

- Do not expose to the sun. Harmful if ingested. Non-flammable.

**HTH Green to Blue II**

- transforms water from green to blue as part of the HTH Green to Blue Shock System
- drops particles and dirt to bottom of pool floor
- makes particles easy to filter or vacuum

### KEEP OUT OF REACH OF CHILDREN

MANTÉN ELLEJIDO DE LOS NIÑOS

At the start of the season, or if a severe algae bloom occurs during the season, the pool can be treated and returned to its clear blue appearance within 24 hours by using the HTH Green to Blue Shock System. HTH Green to Blue II is a remarkable agent that will help clear your pool by dropping particles to the bottom of your pool.

**HOW TO USE:** To use this product. Add the amount needed to your pool skimmer. Use entire contents when opened.

**DIRECTIONS FOR USE:** As part of the HTH Green to Blue Shock System, use Green to Blue I first and follow all directions.

1. Make sure the water is circulating. Once HTH Green to Blue I has completely dispersed in the pool water, add 10.0 oz per 5,000 gallons of Green to Blue II through the skimmer.
2. Leave the system circulating for 1 hour then turn off the filter pump and allow any particles or debris to settle overnight.
3. The following day, vacuum the sediment to waste.
4. If the pool has not cleared out or is not blue in color, repeat Green to Blue I treatment. Repeat Steps 2 and 3.

**PRECAUTIONARY STATEMENTS:**

WARNING: Contains polvamidum chloride. Avoid eye contact. Do not get into eyes, on skin or on clothing. Do not swallow. Wear safety glasses or goggles and chemical-resistant gloves when handling this product. Wash hands thoroughly after handling. Do not mix with other chemicals.

**STORAGE AND DISPOSAL:** Keep the product in its original, tightly closed container when not in use. Do not mix directly with any other chemicals, including those normally used in the pool. Use entire contents, then rinse area and offer for recycling, or dispose of in accordance with state and local regulations. Do not reuse empty container.

**HTH Green to Blue I**

**PHYSICAL AND CHEMICAL HAZARDS:**

**DANGER:** A product exposed to small amounts of water, can react violently to produce heat and toxic gas and scatter. Do not add water to the product. Add only into water.

- Do not use this product with a small amount of water. Only add this product directly to your pool in bulk.
- Do not allow to become wet or drop before use.
- Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.
- Do not use this product in a system or tank that has been used with any other product.
- Do not add this product to contact water treatment products. If used with a disinfectant, allow the disinfectant to completely clear and free of residue from other water treatment products before using this product.
- Keep away from food and from flame and burning material (like a lit cigarette).

**ENVIRONMENTAL HAZARDS:**

This product is toxic to fish and aquatic organisms.

**EMERGENCY HANDLING:**

In case of contamination or decontamination: Do not ingest container. Place the container in a dry advertisement box and return (if possible). Rinse with large amounts of water until the material is eliminated. Dispose of container and any remaining contaminated material in an approved landfill area.

**STORAGE & DISPENSING:**

Keep this product dry to its tightly closed container. Store in a cool, dry, well-ventilated area away from heat or open flame.

**ENFORCEDMATERIAL DERIVED FROM PETROLEUM**

Do not expose or return this container. Rinse and discard empty container thoroughly with water to dissolve all residual material. Offer for recycling if available. Do not contaminate food or feed by storage or disposal of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSTIVE PRODUCT SEE "EMERGENCY HANDLING".
