EPA Reg. No. 7969-289

Refer to the Headline® SC fungicide main label, EPA Reg. No. 7969-289, for complete
Directions For Use and all applicable restrictions and precautions. When
following the instructions on this supplemental label, the user must have
this label and the entire Headline SC container label in possession at the time
of pesticide application.

Directions For Use

It is a violation of federal law to use this product in a
manner inconsistent with its labeling. DO NOT apply
this product in a way that will contact workers or other
persons, either directly or through drift. Only protected
handlers may be in the area during application. For any
requirements specific to your state or tribe, consult the
agency responsible for pesticide regulation.

General Information

Headline SC provides optimum disease control when
applied in a regularly scheduled protective fungicide
program and used in a spray program that rotates
fungicides with different modes of action.

Application Instructions

Apply rates of Headline SC to soybeans as instructed
in the Crop-specific Requirements section of the
Headline SC container label.

Aerial applications of Headline SC may be made to
soybeans in water volumes of 1 or more gallons of
spray solution per acre (gpa). The use of a crop oil or
adjuvant may be used to improve spray coverage.
Refer to the adjuvant and other tank mix pesticide
product labels for specific use directions and
restrictions. Always follow the most restrictive label of
the tank mix partners. Consult a BASF representative
or local agricultural authority for more information
concerning additives.

Select spray nozzles, pumping pressure, and sprayer
height to provide medium-to-fine spray droplets that
penetrate throughout the crop canopy. Spray
 calibration must be conducted to confirm spray droplet
sizes. Continue to monitor spray application (including
weather conditions) to assure proper droplet size and
canopy penetration.

No aerial application in New York State except as
permitted under FIFRA Section 24(c), Special Local
Need Registration.
