PRECAUTIONARY STATEMENTS

HAZARDOUS COMPONENTS AND DOMESTIC ANIMALS:
Corrosive. Causes irreversible eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear protective clothing when handling. In case of contact with eyes or skin, wash thoroughly with soap and water after handling. Do not eat or drink. Avoid breathing dust or mists. Do not inhale. Store in cool, dry conditions. Keep away from sparks and open flames.

ENVIRONMENTAL HAZARDS:
This material is toxic to fish. Do not dispose of paint by draining of equipment or disposal of wastes. Do not allow drip and basal generated during application to drain into soil. Spent materials should not be disposed of in or near watercourses. It is not for disposal into a drain, septic system or sewer system. Permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this material into air or water without first obtaining the written permission of the permitting authority.

DIRECTIONS FOR USE

This paint is a one-pack coating for vessels. Always stir thoroughly preferably in airless spray. Application by brush or roller is not recommended. Unmixed material (in closed containers) should be maintained in protected storage between 35-95F (2-38C) with a minimum of 0F (2C) above dew point. For optimum results, mixing should be reduced to a minimum. Mixing should only be done at the point of use. Use the minimum amount of recognized thinner as specified above. This paint should be applied in good weather when air and surface temperatures are above 35F (2C). For optimum mixing, bring paint to room temperature. Use a power agitator before use.

MIXING:
This paint is a one-pack coating for vessels. Always stir thoroughly preferably with a power agitator before use. Unmixed material (in closed containers) should be maintained in protected storage between 35-95F (2-38C) with a minimum of 0F (2C) above dew point. For optimum results, mixing should be reduced to a minimum. Mixing should only be done at the point of use. Use the minimum amount of recognized thinner as specified above. This paint should be applied in good weather when air and surface temperatures are above 35F (2C). For optimum mixing, bring paint to room temperature. Use a power agitator before use.

APPLICATION:
Airless spray is strongly recommended. If spray is chosen, apply with a 15-20 psi (100-137kPa) atomizing nozzle. Do not allow paint to freeze. Store in cool, dry conditions. Keep away from sparks and open flames. Do not inhale. In case of contact with eyes or skin, wash thoroughly with soap and water after handling. Do not eat or drink. Avoid breathing dust or mists. Do not inhale. Store in cool, dry conditions. Keep away from sparks and open flames.

APPLICATION METHOD & LIMITATIONS:
Suitable coating systems are recommended for SEA GRANDPRIX 500. Prior to application, the condition of the equipment needs to be monitored continuously.

PAINT SYSTEMS AND COMPATIBILITY:
Suitable coating systems are recommended for SEA GRANDPRIX 500. Prior to application, the condition of the equipment needs to be monitored continuously.

PREPARATION OF SURFACE:
The surface must be clean and dry prior to paint application. Use a recognized thinner such as CR/ACRI Thinner A or seek assistance from CMP Coatings should be consulted for suitability of specific products on individual vessels.

CLEANUP:
Clean all equipment immediately after use with a recognized paint thinner. Keep out of the reach of children.

STORAGE AND DISPOSAL:
Do not store paint at temperatures above 120F (49C). For emergencies involving this product, call toll free 1-800-424-9300.

THEORETICAL VOLUME: 5.52 gal (20.925 L)

PRECAUTIONARY STATEMENTS

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have the product container or label available when seeking treatment.

In case of contact with eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

In case of exposure or contact: Call a poison control center or doctor immediately for treatment advice. Have the product container or label available when seeking treatment.

First Aid:
In case of contact: Remove all dirt, grease, oil, soluble contaminants and other detrimental "foreign" matter by cleaning. For unpainted surfaces, prepare surface and apply anticorrosive coating should be applied to metals and a primer is recommended for CMP Coatings should be consulted for suitability of specific products on individual vessels.

Drying Time:
Dry to launch Minimum 24 hours 18 hrs. 12 hrs. 10 hrs.

Conditions Temperature 56F 72F 86F 101F
DFT=100µ 1 hr. 30 min. 1 hr. 30 min. 1 hr. 30 min. 1 hr. 30 min.

Storage:
If not in use, store in cool, dry conditions. Keep away from sparks and open flames. Do not inhale. When applying, use a recognized paint thinner such as CR/ACRI Thinner A or seek assistance from CMP Coatings should be consulted for suitability of specific products on individual vessels.
