For Fast Treatment of Yellow
And Mustard Algae in Swimming Pools

- Dissolves Quickly
- Leaves No Residue
- May Be Used In All Types Of Pools

Active Ingredient:
Sodium Bromide ....................... 99%
Other Ingredients: ......................... 1%
Total: .................................. 100%

Net Contents: 2 lbs.

KEEP OUT OF REACH
OF CHILDREN
CAUTION
SEE BACK PANELS FOR ADDITIONAL PRECAUTIONARY STATEMENTS AND FIRST AID.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label and use strictly in accordance with precautionary statements and directions. This product is a granular formula that helps clear away slimy, yellow and mustard algae in swimming pools. When used as directed, this product clears water quickly and can be used in any type of swimming pool. Swimming may be resumed several hours after treatment.

IMMEDIATE TREATMENT: To remove visible yellow or mustard algae (all dosages are for 10,000 gallons of water). Brush walls and floor areas affected by yellow algae accumulations. Apply 4 oz. of this product as close to the affected areas as possible. For severe accumulations, double the above dosage. After algae treatment is applied, the pool should be shocked to oxidize contaminants and inorganic by-products of the pool sanitation process. An appropriate shock product must be used following the directions of that product’s label. Swimming may be resumed several hours after treatment.

WEEKLY MAINTENANCE TREATMENT: To prevent accumulation of yellow algae (all dosages are for 10,000 gallons of water). With water temperature over 80°F, add 4 oz. of this product followed by 1 gallon of liquid chlorine or 1 pound of dry chlorine once a week. With a water temperature under 80°F, add 2 oz. of this product weekly followed by ½ gallon of liquid chlorine or ½ pound of dry chlorine.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal. PESTICIDE STORAGE: Store in a cool, dry, well-ventilated area, in well-closed original containers, away from energy sources, acids, bases, and heavy metal salts. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Completely empty bottle into pool. Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

WARNING: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but to the extent consistent with applicable law, neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.
