SpectracidePRO® Wasp & Hornet Killer is designed to kill wasps, hornets and yellow jackets and eliminate the nests where they live and breed. This product also kills mud daubers.

**READ COMPLETE LABEL BEFORE USE.**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For outdoor use around the home only.

Do not water the treated area to the point of runoff. Do not mix applications during rain. All outdoor applications must be limited to spot or crack and crevice treatments only, except for the following permitted uses:

1. Treatment to soil or vegetation around structures
2. Applications to building foundations, up to a maximum height of 3 ft
3. Applications to buildings, foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structure surfaces (such as windows, doors and eaves) are limited to spot and crack and crevice applications only.

Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any crack during or after application.

Never use indirectly. Do not apply to people or pets. Do not contaminate food, foodstuffs, dishes or utensils with spray. Before using in areas where spray may contact home siding or roof eave, test in an inconspicuous area and recheck in a few hours.

**For Nest:**

1. Apply at sunrise or sunset when insects are least active.
2. Stand a safe distance from the nest. Do not stand directly underneath.
3. Shake can before each use. Aim spray away from person. Push button to spray.
4. Spray the nest until it is completely covered. This product’s powerful spray will also kill insects that return to the nest.
5. Wait at least 24 hours before removing the nest.

**To Kill Wasps, Hornets & Yellow Jackets:**

1. Spray 1-2 ounces until surface is moist or kill wasps, hornets and yellow jackets under awnings and around screens, windows, doors, patios, cracks, holes and crevices or wherever else insects are located.
2. To prevent insects from entering the home, spray around areas where insects enter, such as outdoor plumbing, faucets, etc., cracks or crevices in foundations as well as along walls and ledges.

**Use Tips:**

1. If it’s windy, stand with the wind at your back to avoid spray drift.
2. Avoid spraying vegetation directly.

**STORAGE AND DISPOSAL**

Storage: Store in cool, dry area away from heat or open flame. Disposal: Do Not Paint Over or Incinerate. If Empty: Place in trash or offer for recycling if available. If Problematically Filled: Call your local soil and water agency for disposal instructions.

**PRECAUTIONARY STATEMENTS**
