• Hold eye open and flush with plenty of water for 15 minutes. Remove contact lenses, if present.

IF IN SKIN:

• Wash thoroughly with soap and water

IF IN MOUTH:

• Do not induce vomiting

**TREATMENT:**

• Call a poison control center or doctor for treatment advice.

**IN CASE OF EMERGENCY CALL:**

1-800-654-6911

Have the product container or label with you when calling a poison control center or doctor for treatment advice.

**SYMPTOMS OF EXPOSURE:**

• In case of contamination or spillage, evacuate the area and call a professional contractor or doctor for treatment advice.

**SIGNS OF OVERDOSAGE:**

• Treatment is generally indicated by respiratory distress and cardiovascular collapse.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

• Keep out of reach of children.

• Do not contaminate food or feed by water to dissolve all material prior to disposal.

• Offer for container. Rinse and discard empty container thoroughly with flame.

• Nonrefillable container. Do not reuse or refill this product.

**KEEP OUT OF REACH OF CHILDREN**

**KEEP OUT OF REACH OF CHILDREN**

**STORAGE & DISPOSAL:**

• Keep away from heat and from flame and burning intensity.

• Exposure to heat can cause this product to rapidly transform pool water from green to blue.

• Keep all foreign matter, including other water treatment products before putting this product in a skimmer.

• Can react with other materials, including other water treatment products.

**ENVIRONMENTAL HAZARDS:**

• Transforms pool water from green to blue.

• Controls algae and kills bacteria

**USE:**

• Transforms pool water from green to blue.

• Controls algae and kills bacteria

**DIRECTIONS FOR USE:**

1. Add the recommended dosage of this product during evening hours. Do not mix with a small amount of water. Only add directly to pool. Do not mix with a small amount of water. Only add directly to pool.

2. Return valve to filter position after pool has been vacuumed.

3. Leave the system circulating for 1 hour then turn off the filter pump and allow to settle overnight.

4. The following day, change valve to vacuum position and vacuum out.

5. If any granules settle to the bottom of the pool, use a vacuum and add 1.3 lbs of Ultima® Swamp to Swim® II per 10,000 gallons of pool water through the skimmer.

6. Return valve to filter position after pool has been vacuumed.

**LIMITED USE:**

• Use only as directed by the label.

**PRODUCT INFORMATION:**

• Ultima® Swamp to Swim® is a two-part system that kills bacteria and makes it easy to turn your pool sparkling blue again. This two-part system kills bacteria and makes it easy to turn your pool sparkling blue again.

**USE ONLY AS DIRECTED:**

• This product is nonrefillable. Do not use in small amounts of water. Only add directly to pool.
