DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility in operation. Serving areas are defined as areas where foods are served, such as dining rooms, but excluding areas where foods are prepared or held.

Non-food areas are such as garbage pails, lavatories, entrails, vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (afterIsActiveInAReview=false); in the home areas as closets, attics, under elevators, and storage areas or throughout our home before use. Cover or remove exposed foods. Those with asthma or severe allergies should consult their medical professional before using this product and have someone else apply this product.

Precautions and Restrictions

Avoid contamination of feed and foodstuffs. Remove pets and birds and cover fish aquaria before space spraying or surface applications. This product is not for use on humans. Vacate room after treatment and ventilate before re-entering.

Shake Well Before Using

Remove protective cap, hold container upright and spray from a distance of 12 to 18 inches, 8 to 10 inches for clothing and materials. Prior to application, test product on an inconspicuous area to be sure for unwanted effects (discoloration or bleeding, for example). Spray until surface is damp; do not spray to the point of run-off as over-application may cause damage. This product will not drain surfaces or fabrics where water alone causes no damage.

Black Flies, Blue Flies, Fruit Flies, Gnats, Houseflies, Mosquitoes, Skipper Flies and Small Flying Moths: Close all doors and windows and spray at the rate of 2 to 3 seconds per 100 cubic feet of space. For best results, keep area thoroughly dry before using. After mattress is dry, cover it and sheet; do not use mattress without a cover.

In animal quarters and milk rooms for rapid control of Houseflies, Mosquitoes and Small Flying Moths: Close window and doors and spray at the rate of 2 seconds per 1000 cubic feet of space. For best results, keep area thoroughly dry before using. After mattress is dry, cover it and sheet; do not use mattress without a cover.

Spray trails, nests and structures' points of entry. Spray on ants whenever possible and retreat if necessary. For ants: In areas with significant ant activity, apply this product with a long spray at the entrance points and retreat if necessary. Treat baseboards, moldings and floors.

Spray mattresses, particularly around tufts and seams. Take beds apart and spray into all joints. After mattress is dry, cover it and sheet; do not use mattress without a cover.

Spray the top, bottom and sides of mattresses, paying particular attention to tufts and seams. Allow to dry for at least 30 minutes before using. After mattress is dry, cover it and sheet; do not use mattress without a cover.

Dust Mite Spray

For protection against Ticks, including those that may carry Lyme disease, and Mosquitoes: Apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to the skin and utilize the following repellent measures. Avoid areas where the pest is found, wear appropriate protective clothing (light-colored, long-sleeved shirt and long pants backed into socks) and inspect body daily for ticks. Wear pant cuffs inside the socks to foot area to ensure full protection against all arachnids.

Initial Treatment Instructions:

1. Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated (as a complete piece) in sunlight, in direct sunlight, on a sail, trousers and socks.
2. Hold can upright about 6 to 8 inches from clothing surface and spray with a slow, sweeping motion to lightly moisten the fabric surface.
3. Continue spraying over entire outfit, until a total treatment time of 60 seconds has elapsed and the outer fabric surface is moist enough to cause a slight color change or darkening. Pay special attention to pockets and trouser and short cuffs.
4. Turn over the clothing and treat the other side as directed in steps 2 and 3.
5. Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing.
6. Own can treats 2 complete outfits. Do not exceed recommended spraying times.

Retreatment Instructions:

This product contains an active ingredient that actually binds to the fabric being treated, providing residual protection that lasts a minimum of two weeks, and holds up through several machine washings. Do not remove clothing more than once every two weeks. Launder clothing at least once before retreating. Follow the instructions for initial treatment when retreating again.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry, inaccessible to children and pets and away from heat, sparks and open flame. Do not freeze.

Disposal: Non-refillable container; do not refill or reuse this container. Do not puncture or incinerate. If product is empty: Place in trash or offer for recycling if available. (Only in U.S.) Call your local solid waste agency for disposal instructions.

First Aid

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-366-8065 for emergency medical treatment information.

In Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. Call a poison control center or doctor for treatment advice. If In Eye: Hold eye open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If Swallow: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

No Poison: This product is toxic to fish. Do not contaminate water where discharged. For any unexplained illness related to this product, consult a physician.
