DR. EARTH 100% Organic Insect Spray

DR. EARTH HOME AND GARDEN INSECT SPRAY was
developed for today's gardener who requires safe and effective
control of insect pests without using harmful chemicals around
their family, pets, or in their garden. Our technology is naturally
occurring and derived from a combination of essential oils along
with garlic extract. This dynamic combination smells herbal fresh
and effectively controls a broad-spectrum of insects, including
Aphids, Fungus Gnats, Leafhoppers, Caterpillars, Whiteflies,
Mealworms, Mites, Scale, Centipedes, Earwigs, Silverfish,
Spiders, Cockroaches, Ticks, Pillbugs, Crickets,
Flea and other insects. Dr. Earth goes to work immediately; death
generally occurs minutes after application but could take many
hours depending on the type of insect and how much spray was
delivered directly on the pest. The product is an ideal and
effective way to control and knock down insect pests naturally.

Directions for Use:
Ready to use. Please read the entire
label carefully. Use only as directed.

Home & Garden Insect Spray Use:
As first sign of infestation, target the area to be treated by
thoroughly wetting all parts of the plant
foliage, including the underside of the leaves. Avoid
spraying blossoms directly. Repeat application in
10 to 14 days or sooner if needed. Do not apply to
plants experiencing drought stress. Apply early
morning or late afternoon to avoid leaf burn. Use
cautiously on sensitive plants. Test a small part
of one plant for phytotoxicity (leaf burn) before
application. May be used on edible crops up to and
including the day of harvest. Do not use when beneficial
insects or bees are active.

Precautionary Statements:
CAUTION: KEEP OUT OF REACH OF CHILDREN.
Avoid contact with skin, eyes or clothing. Wash thoroughly
with soap and water after handling.

First Aid: If In Eyes: Flush eyes with plenty of water. Get medical
treatment if irritation persists.
If On Skin: Wash with plenty of soap and water. Consult your
physician if irritation persists.
If Inhaled: Seek fresh air. If Swallowed: Rinse mouth out with water. Do not
induce vomiting. Never give anything by mouth to an unconscious person. Get
medical attention.

Storage and Disposal:
Storage: Store this product in its original container and keep
in a secure storage area out of reach of children and domestic animals. Avoid storing below
40° or above 105°. Disposal: Do not reuse container. Securely wrap original container
in several layers of newspaper and dispose of in trash.
