AMERSTAT® 25
ANTIMICROBIAL AGENT

DIRECTIONS FOR USE
It is a violation of Federal law to broadcast this product in a manner inconsistent with this label.

FUEL PRESERVATION
For control of bacterial and fungal growth in the following liquid hydrocarbon tanks and oils: jet fuel, diesel fuel, kerosene, heating oil, natural gas liquids, lube oil, and hydraulic fluids, and for protection of all storage tanks and oil storage areas from bacterial and fungal growth. It is designed to prevent rusting of metal storage tanks and should also be used for metal storage tanks when not in use. It is also recommended for use in metal tanks containing fuels which have not been treated with a rust inhibitor.

To maintain protection, use 60 ppm (0.006%) Amerstat-25 in all storage tanks. It is not necessary to drain and clean the tanks before adding Amerstat-25. (Note: Amerstat-25 may not be compatible with some metals and should be checked for compatibility before use.)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Corrosion: Caustic irritant skin and eye damage or skin burns. Avoid contact with skin and eyes. If swallowed, vomit or rinse with plenty of water.

Personal Protective Equipment: Appropriate protection for frequently repeated skin contact may cause damage to the skin.

Inhalation: No special precautions are necessary.

Skin: Avoid contact with skin and eyes. If swallowed, rinse with plenty of water. If pain persists, consult a physician.

Ingestion: Do not induce vomiting. If symptoms persist, consult a physician.
