Supplemental Label

For tank mixes with adjuvants or other products on cucurbit vegetables

Active Ingredient:
pyraclostrobin (carbamic acid, [2-[[1-(4-chlorophenyl)-1H-pyrazol-3-yl]oxy)methyl]phenylmethoxy- methyl ester) ................................................. 20.0%
Other Ingredients: ........................................................................................................... 80.0%
Total: .............................................................................................................................. 100.0%

EPA Reg. No. 7969-187

Directions For Use

Refer to the Cabrio main label, EPA Reg. No. 7969-187, for complete Directions For Use and all applicable restrictions and precautions. User must have the full Cabrio container label and this supplemental label for the intended use in possession at the time of pesticide application.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Crop-specific Requirements

Tank Mixes with adjuvants and other products

Cabrio can be tank-mixed with additives or adjuvants on muskmelon crops such as cantaloupe and honeydew. This allowance with the following precautions supersedes that shown on the label attached to the Cabrio container.

BASF evaluations indicate that tank mixes of additives, adjuvants, and/or other products with Cabrio on cucurbit vegetables may result in injury. This is particularly true for muskmelon crops. Users need to be aware of this, proceed with caution, and test for crop safety when tank mixing, as described below.

Applications of additives, adjuvants, and/or other products that increase penetration may cause injury when mixed with Cabrio. Injury potential from these kinds of tank mixes may decrease with lower rates of the tank mix partner.

BASF has not tested all varieties and cultivars with all possible tank mix combinations and rates of additives, adjuvants, and/or other products. Local environmental conditions also influence crop tolerance and may not match those under which BASF has conducted testing. Physical incompatibility, reduced disease control, or crop injury may result from mixing Cabrio with other products.

To minimize the likelihood of crop injury, BASF recommends testing Cabrio in combination with additives, adjuvants, and/or other products for crop safety on a small portion of the crop. However, environmental variability precludes direct and consistent projection of small area test results to future use.

Consult a BASF representative for more information concerning additives or adjuvants.

To the extent consistent with applicable law, the user assumes all risks associated with adding products to the Cabrio spray solution. Refer also to the Conditions of Sale and Warranty section of this label.

DO NOT tank mix Cabrio with malathion, Kelthane® agricultural miticide, Thiodan® insecticide, Phaser® insecticide, Lannate® insecticide, Lorsban® insecticide, M-Pede® insecticide/fungicide, or Botran® fungicide as crop injury may result.

No aerial application in New York State except as permitted under FIFRA Section 24(c), Special Local Need Registration.

Application Instructions

Refer to Table 2. Cabrio® EG fungicide Crop-specific Requirements in the Cabrio container label for applying Cabrio according to rate and timing instructions.
### Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.**

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
