Supplemental Label

For use in seed corn

This supplemental label expires March 10, 2014.

Active Ingredient:
safufencil: N'2-chloro-4-fluoro-5-(3-methyl-2,6-dioxo-1,4(6H)-quinazolinyl)benzoyl-N-isopropyl-N-methylsulfamide ......................................................... 29.74%
Other Ingredients: .................................................................................. 70.26%
Total: .................................................................................................... 100.00%
Contains 2.65 pounds active ingredient safufencil per gallon formulated as a water-based suspension concentrate.

EPA Reg. No. 7969-278

Directions For Use

Refer to the Sharpen™ herbicide main label, EPA Reg. No. 7969-278, for complete Directions For Use and all applicable restrictions and precautions. When following the instructions on this supplemental label, the user must have this label and the entire Sharpen container label in possession at the time of pesticide application.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Use Information

Sharpen may be applied preplant surface or preemergence to seed corn for burndown broadleaf weed control (refer to the product container label for list of weeds controlled). An adjuvant system (refer to Additives section in the product container label for details) is required for optimum burndown activity.

Before applying Sharpen to seed corn, verify the selectivity of Sharpen on your inbred line with your seed company (supplier) to help avoid potential injury to sensitive inbreds.

Sharpen may result in delayed crop emergence and stunting under certain environmental conditions including cool temperatures, excessive rainfall/irrigation, and/or persistent wet soil conditions occur after application.

Enhanced Burdown

Apply Sharpen preplant surface or preemergence at 1.0 to 2.0 fl ozs/A for enhanced burndown broadleaf weed control prior to crop emergence. DO NOT exceed 1.0 fl oz/A on coarse soils. Refer to product container label for definitions of soil texture groups.

Ensure that the seed row is closed. Soil conditions that cause poor seed furrow closure and coverage may result in delayed crop emergence or stunting.

A sequential application of Sharpen may be made with a minimum of 30 days between applications.

Crop-specific Restrictions and Limitations

• DO NOT apply Sharpen after seed corn emergence or severe crop injury will occur.
• DO NOT apply Sharpen where an at-planting application of an organophosphate (OP) or carbamate insecticide(s) is planned and/or has occurred because severe injury may result.

EXCEPTION: Sharpen may be applied when Aztec® insecticide or Fortress® insecticide is applied at planting as a band, T-band, or in-furrow. Sharpen may be applied with all other classes of at-planting insecticides including pyrethroids, neonicotinoids, and fipronil.

BASF Corporation
26 Davis Drive, Research Triangle Park, NC 27709
• DO NOT apply more than a maximum cumulative amount of 4.0 fl ozs/A of Sharpen (0.089 lb ai/A saflufenacil) per cropping season.

• Corn forage and silage can be harvested, fed, or grazed 80 or more days after application.

• Refer to the product container label for rotational crop intervals.

**Tank Mixtures**

Broad-spectrum control of grasses and/or additional broadleaf weeds will usually require a tank mix with another herbicide. **Sharpen™ herbicide** may be tank mixed with or applied sequentially with one or more of, but not limited to, the following herbicide products:

- Clarity® herbicide
- G-Max Lite™ herbicide
- Guardsman Max® herbicide
- Status® herbicide
- atrazine
- glyphosate (e.g. Roundup® herbicide)
Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
