Supplemental Label

For use in pearl and proso millet

Active Ingredient:
safufenacil: N-[2-chloro-4-fluoro-5-(3-methyl-2,6-dioxo-4-(trifluoromethyl))-3,6-dihydro-1(2H)-pyrimidinyl]benzoyl]-N-isopropyl-N-methylsulfamide .................................................. 29.74%
Other Ingredients: .............................................................................................................. 70.26%
Total: ................................................................................................................................ 100.00%
Contains 2.85 pounds active ingredient safufenacil per gallon formulated as a water-based suspension concentrate.

EPA Reg. No. 7969-278

Directions For Use

Refer to the Sharpen™ herbicide main label, EPA Reg. No. 7969-278, for complete Directions For Use and all applicable restrictions and precautions. When following the instructions on this supplemental label, the user must have this label and the entire Sharpen container label in possession at the time of pesticide application.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Use Information

Sharpen may be applied preplant surface or preemergence to millet for burndown broadleaf weed control (refer to Table 1 on the main Sharpen label for list of weeds controlled). Millet in this label refers to pearl and proso millet.

Before applying Sharpen to millet, verify the selectivity of Sharpen on your variety with your seed company (supplier) to help avoid potential injury to sensitive varieties.

Application Information

Apply Sharpen for burndown control of broadleaf weeds early preplant through preemergence at 1.0 to 2.0 fl ozs/A. Sharpen at 2.0 fl ozs/A will provide limited residual control of broadleaf weeds. Performance will depend upon amount of rainfall for activation, soil texture, and broadleaf species/population.

An adjuvant system (refer to the Additives section in product container label for details) is required for optimum broadleaf burndown activity. Sequential applications of Sharpen may be made as needed prior to millet emergence. Early preplant applications may be applied as part of a split application program where the first application is made early preplant and the second application is made preemergence. Separate sequential applications by at least 30 days.

Crop-specific Restrictions and Limitations

- **DO NOT** apply to other types of millet (e.g. foxtail millet) or severe crop injury may occur.
- **DO NOT** apply to millet grown in soils with a pH of 7.8 or above or crop injury may occur.
- **DO NOT** apply more than a maximum cumulative amount of 6.0 fl ozs/A of Sharpen per cropping season.

BASF Corporation
26 Davis Drive, Research Triangle Park, NC 27709
• **DO NOT** apply after millet emergence or crop injury will occur.

• Ensure that the seed row is sufficiently covered with soil to avoid washing and concentration of the herbicide in the seed zone.

• Millet forage and hay can be fed or grazed 30 or more days after application.

• Refer to Table 4 on the product container label for rotational crop intervals.

**Tank Mixtures**

Broad-spectrum burndown control of grasses and/or additional broadleaf weeds will usually require a tank mix with another herbicide. **Sharpen™ herbicide** may be tank mixed or applied sequentially with one or more of, but not limited to, the following herbicide product:

• glyphosate (e.g. Roundup® herbicide)
## Conditions of Sale and Warranty

The *Directions For Use* of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the *Directions For Use*, subject to the inherent risks, referred to above.

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND BASF’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.**

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing *Conditions of Sale and Warranty* which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
