FIRST AID
Have label with you when obtaining treatment advice.

If swallowed
• Call a poison control center, doctor or call 1-877-854-2494 immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.

If on skin or clothing
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15–20 minutes.
• Call a poison control center or doctor immediately for treatment advice.

If in eyes
• Hold eye open and rinse slowly and gently with water for 15–20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor immediately for treatment advice.

NOTE TO PHYSICIAN
If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K₁ intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian at once.

NOTE TO VETERINARIAN
Anticoagulant Bromadiolone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

DIRECTIONS FOR USE
Do not sell this product in individual containers holding less than 16 pounds of bait.

APPLICATION DIRECTIONS:
Rats: Apply 3 to 16 blocks per placement, usually spaced 15 to 30 feet apart. Maintain a constant supply of fresh bait for 15 days or until signs of rat activity cease.
Mice and Meadow Voles: Apply 1 block per placement, usually spaced 6- to 12-foot apart. Up to 2 blocks may be needed at points of very high activity. Maintain a constant supply of fresh bait for 15 days or until signs of mouse or meadow vole activity cease.

Follow-up: Replace contaminated or spoiled bait immediately. Wearing waterproof gloves, collect and properly dispose of all visible dead animals and leftover bait. To discourage reinestation, limit sources of rodent food, water, and harborage as much as possible. For a continuous infestation, set permanent bait stations and replenish bait as needed.

USE RESTRICTIONS
This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodon hispidus), Eastern harvest mouse (Reithrodontomys humilis), Golden mouse (Ochrotomys nutalli), Polynesian rat (Rattus exulans), and Meadow vole (Microtus pennsylvanicus). The product must be used in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commensal rodents and/or their destructive activities. The use of this product is prohibited in areas that are open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

INSECTICIDES
Intricate and attractive rodenticides against rodents and pest insects. The formulations include active ingredients and technical grade ingredients, as well as a variety of catalysts, thickeners, and preservatives. The products are available in various forms, such as granular, block, and gluing formulations. Each product label provides specific instructions for use, storage, and disposal, as well as warnings and precautions to ensure safe and effective application.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to mammals and birds. Dogs and other predator and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not contaminate water when disposing of equipment wash water or rinsate.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility. Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration.

WARRANTY
To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

User Safety Requirements
Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

Precautionary Statements:
Hazard to Humans and Domestic Animals
CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes, on skin, or on clothing.

All handlers (including applicators) must wear long-sleeved shirt, long pants, shoes, socks, and waterproof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.
