It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

NOTE TO USER: Do not apply this product in a way that will contact workers or others.

SAFETY PRECAUTIONS:
- Do not inhale vapors or allow direct contact with skin, eyes or clothing.
- Do not ingest.
- Do not get product in eyes, on skin, or clothing.
- Wash completely and promptly with soap and water after handling and before eating, drinking, smoking, or using the toilet.
- Do not eat, drink, or smoke in the area immediately after using BUSAN 1234.
- Do not use BUSAN 1234 for any other purpose unless specifically allowed by this label.
- Do not contaminate water, food, or feed by storage or disposal.

FIRST AID:
- In case of contact:
  - Do not rub eyes. Rinse eyes immediately with plenty of water for about 15 minutes and immediately seek medical attention.
  - Remove contact lenses (if present) after the first 5 minutes and refer to appropriate medical authorities.
- In case of ingestion:
  - Do not induce vomiting unless told to do so by the poison control center or doctor.
  - Do not give anything by mouth to an unconscious person.
- In case of inhalation:
  - Move person to fresh air.
  - Keep person warm and quiet.
- In case of fire:
  - Stop flow of material if possible; otherwise, do not fight fire unless you can do so with a Class B or C extinguisher or water spray stream.
- For other harmful exposures or if information is needed on toxicological effects, contact a poison control center or a certified medical毒物学 professor.

FIRE FIGHTING AIDS:
- If involved in a fire, use water, dry chemical, foam, or carbon dioxide (CO2) fire extinguisher to extinguish fire.
- Use water to cool containers until relieved of fire hazard.

Revised: 10/16/17

Pigment slurries (non-paint), non-food adhesives, caulks and sealants:
- For the protein containing system where there is sufficient time and agitation for good dispersion and mixing.
- Use of this product may also be applied to other systems to improve the effectiveness of the dispersing agents and the permitting aggravation of the dispersion.

Physical and chemical hazards:
- Potentially harmful if inhaled, ingested, or absorbed through the skin.
- Product may be harmful to aquatic organisms and is harmful to land animals.
- Would cause heating up.
- Would cause severe irritation of the skin.
- Would cause severe irritation of the eyes.
- Would cause severe irritation of the respiratory tract.
- Would cause severe irritation of the throat.
- Would cause severe injury to the digestive system.
- May cause or contribute to permanent loss of hearing.
- May cause or contribute to permanent loss of vision.
- May cause or contribute to permanent loss of reproductive capability.

Environment:
- This product is toxic to fish, aquatic invertebrates, and shrimp. Do not discharge.
- Discharge containing this product into lakes, streams, ponds, estuaries, or coastal waters or in areas of the United States where the permitting aggravation of the discharge is required to be notified in advance prior to discharge.
- Do not discharge containing this product to wastewater systems without previous notification to the local sewage treatment plant authorities.
- For general contact your State Water Board or Regional Office of the EPA.
