**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Refill Spray Bottles: Remove: Remove trigger sprayer from empty bottle. Pour: Unscrew cap on refill and pour contents directly into empty bottle. Use: Use trigger sprayer and use as you normally would.

**DISINFECTION TO CLEAN AND DISINFECT HARMFUL, NONPOROUS SURFACES:** Spray 6–8 inches from surface until surface is thoroughly wet. Let stand for contact time listed on label. Wipe excess. Allow to air dry. Rinse with potable water for food-contact surfaces. For all others, no rinsing is required. Gross filth should be removed prior to disinfecting.

**MOLD AND MILDEW:** To control mold and mildew: Apply to precleaned hard, nonporous, inanimate surfaces. Allow to air dry. Repeat application weekly or more often when growth reappears.

Special instructions for Use Against HIV-1, HBV and HCV: This product kills HIV-1, HBV and HCV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be adequately decontaminated and disinfected. This product has the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B (HBV) and Human Hepatitis C (HCV).

Special instructions for using this product to clean and decontaminate against HIV-1, HBV and HCV on surfaces/objects soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impermeable gloves, gowns, masks and eye coverings.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. Contact Time: Allow surface to remain wet for HBV, HIV-1 and HCV for 1 minute. These contact times will not control other common types of virus and bacteria.

Disposal of Infectious Materials: Use disposable impermeable gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prepare or decontaminate critical or semicritical medical devices prior to sterilization or high-level disinfection.

**PRECAUTIONARY STATEMENTS:** HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Avoid contact with foods. FIRST AID: If in eyes: Hold eye open, rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, and continue rinsing. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor if needed. Remove contaminated clothing. Contents contain no phosphorus.
