**DIRECTIONS FOR USE:**

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- Always use personal protective equipment such as disposable gloves, gowns, masks or eye coverings when handling items soiled with blood and body fluids.
- Apply solution on desired surface.
- Scrub and wipe with towel of your choice over desired surface to be decontaminated.
- Allow a minimum contact time of 15 minutes and then allow to air dry.
- Discard towel and container (see front panel).

**SUGGESTED AREAS OF USE:**

- Exam Tables, Carts, Point-of-Care Equipment Surfaces
- Medical, Dental and Laboratory Countertops
- Telephones, Sink Tops, Toilet Seats

**PRECAUTIONARY STATEMENTS**

Hazards to humans and domestic animals

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barriers or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.
