**ACTIVE INGREDIENTS:**
n-Alkyl (C14 60%, C16 30%, C12 5%, C18 5%) dimethylbenzylammonium chloride .............................3.00%

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Do not allow water to enter lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of EPA Est. No.: 60156-IL-1

After the first 5 minutes, then continue rinsing the eyes.

Made in United States • 751634/5301/0712

**One-Step Disinfectant - Cleaner**

**Corrosive.** Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through the skin. May release oxygen and oxides of carbon and/or nitrogen.

**KEEP OUT OF REACH OF CHILDREN**

**HOLD EYE OPEN AND RINSE SLOWLY AND PROLONGEDLY.** Do not give anything by mouth to an unconscious person. Do not give anything by mouth to an unconscious person.

**NOTE TO PHYSICIANS:**

1. Remove gross food particles and soil from all articles using a pre-flush, or pre-scrape and, if necessary, presoak.
2. Introduce use solution into transfer lines and tanks for watering systems and nipple drinkers.
3. Soak or circulate use solution for at least 10 minutes.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water before reuse.
5. Rinse all surfaces thoroughly with a potable water rinse.

**DISINFECTION:**

1. Prepare a precleaning solution by adding 3 - 6 fl. oz. of Boost 3200 to 1 gal. tap water in an appropriate plastic container or vehicle.
2. Add simultaneously an equal amount of Boost 3201 to 1 gal. tap water in an appropriate plastic container or vehicle, depending on the chemical concentration desired.
3. Soak or circulate use solution for at least 10 minutes.
4. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, and waterers until treatment has been absorbed, set, or dried.
5. Rinse all surfaces thoroughly with a potable water rinse.

**PRECLEANING INSTRUCTIONS:**

1) Prepare a precleaning solution by adding 3 - 6 fl. oz. of Boost 3200 to 1 gal. tap water in an appropriate plastic container or vehicle.
2) Add simultaneously an equal amount of Boost 3201 to 1 gal. tap water in an appropriate plastic container or vehicle, depending on the chemical concentration desired.
3) Soak or circulate use solution for at least 10 minutes.
4) Rinse all surfaces thoroughly with a potable water rinse.

**KEEP OUT OF REACH OF CHILDREN**

**In combination with water, or after long-term contact with skin, severe irritations may result.** When microwaved, food particles and soil from all articles using a pre-flush, or pre-scrape and, if necessary, presoak.
2. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.
3. Rinse all surfaces thoroughly with a potable water rinse.

**DIRECTIONS FOR USE**

1) Prepare a precleaning solution by adding 3 - 6 fl. oz. of Boost 3200 to 1 gal. tap water in an appropriate plastic container or vehicle.
2) Add simultaneously an equal amount of Boost 3201 to 1 gal. tap water in an appropriate plastic container or vehicle, depending on the chemical concentration desired.
3) Soak or circulate use solution for at least 10 minutes.
4) Rinse all surfaces thoroughly with a potable water rinse.

**PRECLEANING INSTRUCTIONS:**

1) Prepare a precleaning solution by adding 3 - 6 fl. oz. of Boost 3200 to 1 gal. tap water in an appropriate plastic container or vehicle.
2) Add simultaneously an equal amount of Boost 3201 to 1 gal. tap water in an appropriate plastic container or vehicle, depending on the chemical concentration desired.
3) Soak or circulate use solution for at least 10 minutes.
4) Rinse all surfaces thoroughly with a potable water rinse.
